●	VILLAGE HAVING 5000 AND ABOVE POPULATION WITH NAME
○	TOWNS WITH POPULATION SIZE AND CLASS : I, II, III, V & VI
□	DEGREE COLLEGE & TECHNICAL INSTITUTION

INA, INDUSTRIAL NOTIFIED AREA

VIDHAN SABHA

Capital complex located right in the center of the town is designed on 75 hectares of land on classical lines with multi storied blocks on either side and Vidhan Sabha Gruh set on a rectangular platform in the middle of a circular pond in the center. Gandhinagar is the third new Capital town developed in post – Independent India after Chandigadh and Bhuvneshwer.

Today capital complex is the main attraction of the town which has rightly been dedicated to the peace and nature loving father of the nation, Mahatma Gandhi.

Annexure - VIII : Distribution of different Mother Tongues returned in 2001 Census	381

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census of DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (C.D.Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluka/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums in instead of 'notified slums'. The information is given in case of all statutory towns

irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/ place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of **Shri Jayant Parimal**, Director of Census Operations, Gujarat. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

New Delhi
17th October, 2006.

D. K. Sikri,
Registrar General &
Census Commissioner, India.

P r e f a c e

Census is being conducted in the country every ten years as per the programme laid down by the Government of India. In these day and age of information technology, an individual has access to a variety of information covering a Kaleidoscope of interest and fields. Availability of relevant information is very vital for planners, policy makers and researchers.

The Five Year Plans have come to stay in the country and whatever development is achieved as a result of implementation of planning from the bottom level such as development of infrastructure facilities as well as basic amenities, etc. is reflected in the District Census Handbooks and they give to the readers a searching eye whether the development over the years in villages/talukas/districts is lopsided or upto the mark. This is the basic requirement of this type publications and an attempt has been made to show whether the census handbooks reasonably fulfill these aspirations/requirements.

These district Handbooks are thus useful to planners in planning from bottom as well as to administrators, researchers, educational institutions including universities and other socio-economic research centres as well as students conducting research in demography, social and economic studies as well as to the local bodies like Panchayats, Municipalities and Municipal Corporation etc.

District Census Handbook of Gujarat is a joint venture of the Government of Gujarat and the census organization of the Government of India. In the preparation of the DCHB, the role played by the census organisation is that of Census data collection, scanning of collected information, analysis of PCA. DCHB Unit of the State Government collected the basic non-census information on availability of amenities relating to infrastructure in the villages of the district presented in the part A of this book. The cost of this publication is borne by the State Government. In accomplishing this task we had the ready and whole hearted co-operation of the staff at various levels of different department of the State Government. Most of the data supplied by the various departments have been cross-checked and an attempt has been made to reconcile the discrepancies as well.

I express my deep gratitude to the officers of Gujarat Government particularly Shri P.K.Laheri, Chief Secretary of Gujarat State, Smt. Netraben Shenoy, Additional Chief Secretary of General Administration Department (Planning), Shri George Joseph, Principal Secretary, General Administration Department (Personnel), Shri K.R.Vasava, Deputy Secretary, Kum.P.S. Mevada, Under Secretary and Shri P.D.Kulkarni, Section Officer of General Administration Department, Planning, Shri S.D.Mehta, Deputy Secretary and Shri I.M.Sheikh, Under Secretary, Shri Bipin Patel, Section Officer and Shri P.N.Christian, Deputy Section Officer of G.A.D. (Kh-3) for their valuable help and co-operation in fulfilling all administrative requirement in time for bringing out this publication. I am also thankful to Shri P.M. Patel, Director, Economics and Statistics helped this organisation not only by placing the competent personnel on disposal of census services on deputation but also provided valuable official statistics for this publication.

The District Collector, the District Development Officer, District Statistical Officer, District Information Officer and their staff members extended their warm and whole hearted co-operation for carrying out field work of the census and collection of non-census data for this District Census Handbook.

I am deeply grateful to Shri J.K. Banthia, I.A.S., the Ex-Registrar General and Census Commissioner, India for the benefit I have derived by the way of guidance and advice. I also express my thanks to Shri R.G. Mitra, Deputy Registrar General(C&T) Shri C. Chakravorty, Joint Director, Shri I.C. Agrawal, Senior Research Officer(SS), Shri S.L. Jain, Deputy Director(SS), Shri R.K. Mehta, Assistant Director(SS), Shri R.P. Singh, Dy. Registrar General(Map), Shri Himakar, Addl. Director (EDP) and Shri Anil Kumar Arora, Deputy Director (EDP) for providing technical guidance in finalising this publication. I am extremely thankful to Shri D. K. Sikri, IAS, Registrar General & Census Commissioner, India for his valuable guidance in finalizing of this publication.

Shri Jayant Parimal, I.A.S. who held the office of Director of Census Operations, Gujarat, had guided the operations of the 2001 Census. The data presented in this handbook were collected and compiled under the able direction and guidance of Shri Parimal. Our sincere and grateful thanks for all the projects of census to him.

In state office Smt. B.B. Chauhan, Deputy Director, District Census Handbook Unit, Kum.S.B.Dabhi, Assistant Director, Shri S.B. Dalvi, Deputy Section Officer of District Census Handbook Unit, and their team of able assistants meticulously collected and scrutinized the non-census data from various sources and prepared draft of DCHB etc. with the help of Census section. The other officials of D.C.H.B. Unit, who scrutinised, edited and supervised the work of D.C.H.B. have been mentioned in the "Acknowledgement". The maps provided in the D.C.H.B. are prepared by the Map Section of the Census Directorate under the supervision of Shri J.P. Purohit, R.O(Map). I am thankful to all of them. I am thankful to the census section of the Directorate for scrutinizing the PCA data, specially Shri J.N.Pithadia, Investigator Grade-I and Kum.N.V.Shah, Investigator Grade-III who provided assistance to me in finalizing P.C.A. data at every stage. Smt. J.R.Sanghani, Investigator Grade-III of this Directorate assisted me for final scrutiny of D.C.H.B., I am thankful to her.

Lastly, I am thankful to the Government of Gujarat for having agreed readily to bear the cost of publication of the District Census Handbook volumes and for the special efforts of Shri R.B. Raval, Director, Printing and Stationary and his colleagues to print out the publication in a very nice fashion.

Ahmadabad,
November, 2006.

H. S. Meena
Joint Director of Census Operations,
Gujarat, Ahmadabad.

District Highlights – 2001 Census

Gandhinagar

- (1) Gandhinagar district is the 20th district in terms of population in the State.
- (2) Gandhinagar district is the reconstituted district in 1997 with three talukas transferred from Mahesana district and Ahmadabad district. These are Kalol and Mansa from Mahesana and Dehgam from Ahmadabad. Thus Gandhinagar district has in all 4 Talukas, 291 villages and 10 towns.
- (3) Population density per sq.km. is 616 persons.
- (4) Gandhinagar district is the 4th dense district in the State.
- (5) Gandhinagar district is having 22nd rank in sex ratio.
- (6) Village Pethapur is the most populated village having 18,970 persons whereas village Basan and Vasana Hadmatiya are the least populated village in the district with only 77 persons in each. Coincidentally these highly populated and least populated villages are of Gandhinagar taluka.
- (7) The economy of the district is basically dependent on agriculture as 40.2 per cent workers are engaged in primary sector.
- (8) Machinery & Equipments other than transport equipments, metal products and parts except machinery & Equipments, Non metallic mineral products and Food products are the main non-agricultural economic activities of the district.
- (9) Pethapur village (Gandhinagar Taluka) has the largest area of 2,226.49 hectares and Basan (Gandhinagar Taluka) village has the lowest area of 49.36 hectares among the villages of the district.
- (10) In respect of number of villages, the lowest 50 villages are in Mansa taluka while the highest 98 villages are in Dehgam taluka.
- (11) Gandhinagar city, the taluka and district headquarters of Gandhinagar is the capital of the State.

Important Statistics in the District

Note : *These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

U.A.=Urban Agglomeration

Ahmadabad U.A. is spread over in three talukas and two districts, Ahmadabad City and Daskroi talukas come from Ahmadabad district and Gandhinagar taluka comes from Gandhinagar district.

ANALYTICAL NOTE

ANALYTICAL NOTE

(i) History and Scope of the District Census Handbook:

Before the 1951 Census, the Census figures were published in a booklet known as 'Village Hand-book', which contained only villagewise population figures. These books were prepared and published by the Directorate of Census Operations of the State.

The Directorate introduced the District Census Handbook for the first time in 1951 Census. It comprised the villagewise primary census abstract figures and information on available amenities. It also contained several tables relating to the district. It varied in content and size from State to State depending upon the resources offered by the respective State Governments.

In 1961 Census, a uniform pattern of District Census Handbook was adopted throughout the country. The Directorate of Census and the State Government jointly executed the project. In addition to the English version, it was published for the first time in Gujarati language also. The District Census Handbook 1961 was published in three parts. Part I related to Introductory Note i.e. general and economic information for the district and a brief gazetteer of place names. Part II pertained to census tables, villagewise list of industrial establishments, tables on handicrafts and departmental statistics. Part III consisted of village directory covering the amenities and primary census abstract data combined in one statement. It also covered district and taluka maps.

It is worthwhile here to note that the State Government created a separate unit for preparing and publishing the District Census Handbook since 1971 Census onwards. In the 1971 Census, the contents of District Census Handbook were modified. In the preceding censuses, the data on amenities and primary census abstract were covered in one statement whereas in 1971 Census, the data on amenities and primary census abstract were separated into two different parts. Thus, the coverage of amenities data

was extended and the land use data were introduced for the first time from 1971 District Census Handbook. Moreover, a separate portion known as 'Town Directory' was also incorporated for the first time in the District Census Handbook. The 1971 District Census Handbook was published in three parts. Part A contained the village and town directory. Part B contained village and town wise primary census abstract data and Part C contained official statistics, besides full count census tables, urban census tables and analytical report on census and related statistics socio-economic and cultural tables (Rural areas) and housing tables. Part A and Part B were combined and published in one volume.

The District Census Handbook –1981 was brought out in two parts, Part-A and Part-B. Part-A contained the village and town directory whereas Part-B included the primary census abstract data, for both General Population and Scheduled Castes/Scheduled Tribes. Both parts were published in one volume. Part C brought out for 1971 Census was dropped in 1981 Census. However, official statistics and some portion of analytical notes of part C of 1971 Census were included in the 1981 District Census Handbook also.

For the 1991 Census, the District Census Handbooks were prepared more or less on the same lines of the preceding 1981 Census. In 2001, the scope of both Part A & B has been enlarged by giving several additional information which got possible because of large scale computerization.

The District Census Handbook has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several innovations have been introduced at almost all the stages of the Census of India, 2001; right from the preparatory efforts to the data processing and dissemination stage. This includes certain fundamental changes in the form and contents of the Houselist and Household schedules, while maintaining the continuity and comparability of the basic housing and population characteristics with the earlier census. For the Census of India 2001, a system of Permanent

Location Code Number (PLCN) has been adopted by assigning to each village within the State/UT a continuous series from I to N. Each village has been assigned an eight-digit code. The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the Permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001 are adopted for future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series.

At the 2001 Census age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census.

The type of educational institution attended by a person was enlarged to include school, college, vocational institute.

The scope of the definition of 'work' was expanded in the Census of India, 2001, to include production of milk for domestic consumption. In the 1991 Census, cultivator of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in 2001 Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegetables and fodder crops etc. This meant that activities related to production of all the above-mentioned crops for domestic consumption have been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel-nuts have been classified under 'Plantation' in the Census of India 2001.

At the 1991 Census, the question on seeking/available for work was canvassed for only non-workers. At the Census of India 2001, this question was asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census was dropped.

- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.
- A new response category 'Moved after birth' was included in the question on reason for migration to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census was covered under category of 'Others'.
- Number of children born alive to currently married women during last one year was collected for male and female children separately.

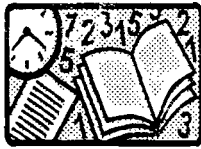

Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census. In the 1991 Census, no question on disability was included. At the Census of India, 2001, a question to elicit information on total or partial disability was canvassed. The five types of disability on which information is collected are - in seeing, in hearing, in speech, in movement and mental.
- A new question on 'Travel to place of work' was canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work was collected under this question.

The mode of presentation of DCHB in 2001 will by and large be same as that of 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc. pertaining to 1991 Census of the respective district in the DCHB in the form of Annexure II to VIII. Similarly Tables based on Houselist data pertaining to Census 2001 have also been included in DCHB.

(ii) Brief History of the District:

The history of the Gandhinagar district is generally known from the archaeology and history of the adjoining districts viz. Ahmadabad and Mahesana.

**Rule of Delhi Sultanate**

At the time of Governorship of Shaikh Muizuddin in the year 1347 A.D. that Sultan Muhammad Tughluq led an army in person from Delhi to Gujarat. During this expedition, the Sultan marched to Daulatabad and thus on his way from Patan to Asawal, he had an opportunity to pass through the territory of the present Gandhinagar district.

Independent Sultanate of Gujarat

In about 1411 A.D. Ahmadabad became the capital of Gujarat, instead of Patan. Ahmadabad touches just the southern boundary of Gandhinagar district. In 1459 A.D. Fateh Khan (known as Mahmud Begada) was enthroned as Sultan. He ranks first among all the Sultan's of Gujarat. Mango trees, Rayans, Mahudas and Jambu trees were planted in his time. The Gandhinagar district seems to have been great advantage of this scheme. The district in view of nearness to Ahmadabad, greatly benefitted from the Begada's rule.

The district assumed substantial importance during age of Sultan in view of its proximity to the capital city of Ahmadabad. The villages lying on the southern end of the district almost are on the way to Agra and Delhi and as such many marches and counter marches took place through the district. The age witnessed remarkable transformation in many spheres. A new Wanta tenure came into existence and trade and commerce also flourished. Shertha, Randheja and Pethapur were affected by the prosperity of the trade and commerce. Pethapur's sword making industry came into existence.

The Mughal Rule

In 1573 A.D. Emperor Akbar conquered Gujarat. Thus, the district came under the direct control of the Mughal Emperor. The Emperor appointed Governors for the administration.

After the death of Emperor Aurangzeb, the struggles between old and new Governors were

started. The land of Gandhinagar being the northward entrance of Ahmadabad such battles were fought in the vicinity of village Adalaj of the Gandhinagar district.

Battles of Adalaj

(1) Battle between Hamid Khan (Deputy Governor of Ahmadabad) and Imperial troops under the Joint command of Gulam Ali Bag, Khwaja Mahamad Ann & Raijada Harkaran.

(2) Battle between Sar Buland Khan Mubaezal-ul-Mulk (old Governor) and Maharaja Abhesing of Jodhapur (Newly appointed Governor).

Battles at Pethapur

(1) Battle between Kolis of Pethapur and Kasam Ali Khan (An officer of The Governor)

(2) Battle between Kolis of Pethapur and Sujat Khan (Deputy Governor)

(3) Battle between Kolis of Pethapur and Mahamad Hasan (Ali Mahamad Khan, Author of Imirat-i-Ahmadabad)

Attack on Valad Thana

Kolis of village Valad of the Gandhinagar district played an important role in those days. In order to protest secret line of supply, Mominkhan posted two officers. These officers were posted for the help of Kolis, who secretly supplied corn and fodder to the city. The Kolis, who collected corn and fodder, first assembled at Valad and then they secretly carried their goods to Kali Fort. During night time, they secretly carried these commodities in the city, without being noticed by the Maratha soldiers. Maratha Generals, however, came to know this and sent an army to Valad twice or thrice, but the army had to return after suffering a great loss. However, the vigilant watch of the Marathas, later on caused great loss of daily earning for the Kolis, because now they could not carry on supply work as before. As a result, the Kolis and Makadams secretly sided with Damaji Gaekwad and advised the latter, now to attack Valad. Shah Mahamad Jamadar saw the treachery of the Kolis, but he was helpless. He left Valad and escaped to Ahmadabad with great difficulty. Thus, with the fall of Valad Thana, the important supply line of Momin Khan was cut off.

The Maratha rule

Gandhinagar district mostly came under Maratha rule. with the conquest of Ahmadabad by Sadashiv Ramchandra and Damaji Gaekwad from Mominkhan in 1758 A.D. Majority of the villages in Gandhinagar district were under the Gaekwad of Baroda till the merger of Baroda State in 1947. Consequently, the history of the Gandhinagar district had close connection with the history of Gaekwad of Baroda.

The Modern Period

The beginning of the reign of Sayaji Rao II may appropriately be said to have started the modern period. Formerly, Marathas collected the tribute directly from the people of Gandhinagar district. Now the East India Company collected the tribute directly and paid to the Baroda ruler. Thus, the people of Gandhinagar district became free from the clutches of Maratha cavalry.

Mahikantha Agency

The Mahikantha agency was situated in the extreme northeast corner of the Bombay presidency. Dabhoda and other villages of Bavisi Thana and two Rajput Pattas viz. Vasna and Pethapur of Gandhinagar district were under Mahikantha agency. Mahikantha chiefs were tributaries of the Gaekwad of Baroda. In 1820, the British Government filed the management of Mahikantha. In 1821, the Governor of Bombay, Mount Stuart Elphinstan, visited the territory and established the new political agency with a view to securing tranquility of the district and providing for the peaceful collection of the Gaekwad's tribute.

Sadra Headquarters of Mahikantha Agency

Sadra of the Vasna State was the Headquarter of the British Government in 1811-12 A.D. The British Major selected lands adjoining an old Fort for the British Camp. Major's Bungalow, Small Bazar, Hospital, Victoria Jubilee Library, Jubilee Clock Tower and other Government buildings came into existence. Thus, Sadra saw a century of prosperity and peace and it became a centre of shopping for the adjoining villages of the Gandhinagar district.

Attachment of the States

The British Government had for a long time under intensive review for solving geographical

administrative and political problems of many small States. As per proposal of Gaekwad of Baroda, the Crown Representatives approved the scheme of attachment. The proposals involved inter alia the discontinuance of tributary payment and the general assumption, subject to certain safeguards, by the Baroda State of functions and responsibilities previously discharged by the Resident and Political agent. As a result, Vasna State, Dabhoda State with other villages of Bavisi Thana and Pethapur State were attached to the Baroda State under this scheme.

Pethapur State

The Thakors of Pethapur were the descendants Vaghela branch of Rajputs. Its original name was Sokhada, but the name Pethapur was given in 1445 A.D. as per the desire of queen of Pethuji, the ruler of Sokhada. During the reign of Vaghaji's son Vifamji, a battle was fought with Muslims and Pethapur was totally ruined. Son of Viramji made truce with Sultan Mahmud Beagada and Pethapur became as prosperous as before. One of the rulers Gambhirsinh expired in 1895 A.D. when his wife Rajaba was pregnant. The British Government accepted the son of Rajaba whose name was Fatesinh as the heir of the gadi in 1896 A.D. After education, Fatesinh took up the reign of his State in 1918 A.D.

Pethapur was a fourth class State in the Mahikantha Agency. After independence, the Pethapur State was merged in the country.

The Freedom Movement

The Gandhinagar district was affected during the great revolt of 1857 A.D. Shri Maganlal Bhukhan, a Bania of Patan who recruited soldiers. He attacked Lodra for collection of arms, which is in the vicinity of the Gandhinagar district. Pethapur was famous for the manufacture of Arms. During those days, the village Unava of the Gandhinagar district had refused to surrender arms.

A patriotic son, Hiralal Motilal Zaveri, of the Gandhinagar district, who was at Paris, helped Indian revolutionaries. He had helped the famous revolutionary Shyamji Krishna Varma etc. and had spent money liberally for the agitation, which they carried on in France and England for freedom of India.

Vadodara Rajya Prajamandal was established in 1916. The Prajamandal started its first branch at village Shertha of the Gandhinagar district under the supervision of Dr. Sumantbhai Mehta, who had established an Ashram there. It was in fact a centre to train the people for the freedom movement.

The people of Gandhinagar district joined the 'Dandi March' the Satyagrah movement of 1930. The Vidyarthi Ashram at Unava arranged to cyclostyle bulletins and sent them to distant places for distribution. The Ashram under the guidance of its founder Somalal Mehta, also gave secret shelter to sick and underground workers. British C.I.D. officers personally visited the Ashram, but they could not detect the so-called treason in the Ashram. A resident of Randheja Shri Dahyabhai Shukla of the district took active part as a Satyagrahi at Bombay. He picketed the shops of European Merchants in the Bombay. He was arrested, imprisoned and was sent to Devalali prison. Strikes, processions and meetings were common in rural areas of Gandhinagar district. Two teachers of Randheja had joined the Satyagrah movement. Shri C.P. Muni, a social worker had camped at Randheja in those days. He awakened the people of the district by visiting different villages, holding meeting and by delivering lectures etc. During the days of 'Quit India Movement' in 1942, the district played its part with great zeal.

It will be clear from the above that Gandhinagar district never remained aloof from participating in the freedom movement.

Gandhinagar the new capital of Gujarat

A separate State of Gujarat came into existence on 1st May 1960. Permanent site for the State new capital was selected on the banks of the Sabarmati River near Pethapur village of the then Kalol taluka, where the decent town of Gandhinagar was constructed. This new township was named Gandhinagar in memory of 'Rashtrapita' Mahatma Gandhi. The district was comprised of a single taluka formed of some villages of Ahmadabad district and some villages of Mahesana district in 1964. The capital of the State was shifted from Ahmadabad to Gandhinagar in 1970.

iii) Administrative Set-up:

With a view to run the administration of the State smoothly, it has been divided into Districts, which in turn have been further sub-divided into Talukas (Tahsils). In the State of Gujarat, the community development blocks are co-terminus with the Talukas. The Talukas contain large number of villages and possibly several towns. The villages have Village Panchayats to run the local administration. A Village Panchayat may constitute of one revenue village, several revenue villages or a part of a large village. Similarly, the towns have Municipality or Municipal Corporation as the seat of local self-government.

In the State of Gujarat, as on December 1999 there were 25 districts and 226* Talukas, against 19 districts and 184 Talukas in 1991 Census. The Government of Gujarat had reconstituted Gandhinagar district by including Kalol and Mansa Talukas from Mahesana District vide Government Notification No.GHM-97-120-M-PFR-2097-2594-L dated 15th October, 1997 and GHM-97-170-M-PFR-3097-2878-L dated 31st December, 1997. Dehgam Taluka included from Ahmadabad district vide Notification No.GHM-97-86-M-PFR-1097-L dated 24th September, 1997. Thus reconstituted Gandhinagar district has four Talukas namely (1) Kalol (2) Mansa (3) Gandhinagar (4) Dehgam.

The District Collector looks after the general administration, maintenance of collection of land revenue and settlement of law related disputes civil supplies, district planning, mid-day meal scheme, etc at the district level. The functions of administration of law and order and control and investigation of crime are done by the Superintendent of Police of the district with the help of Police Stations working under him. For the purpose of maintaining law and order there were 8 police stations, 22 police chowkies and 10 out-posts in the year 1998 as per statement below.

Police Station in the District

Sl. No.	Particulars	1998	2000
1	2	3	4
1.	Police Station	8	10
2.	Police Chowky	22	26
3.	Out post	10	14

Source: Director General of Police, Gandhinagar, 2000

* Vagdod taluka merged in the Patan taluka of the Patan district on 3rd July 2001.

During the period 1998 to 2000 two police stations, four police chowkies and four out-post were increased. At the Taluka level, Mamlatdar looks after the land development and revenue collection and law and order.

The Panchayati Raj institutions are fairly strong and most of the development works have been transferred to the District Panchayats and its subordinate bodies. The District Panchayat has an elected President and District Development Officer appointed by the Government, works as its Secretary, who looks after day-to-day work related to the development. Similarly, at the Taluka level, Taluka Panchayats have been constituted which have an elected President. The Taluka Development Officer, placed by the Government as Secretary of the Taluka Panchayats and he conducts the regular administrative work. Like wise, an elected President heads the Municipality and the Chief Officer works as the Secretary of the Municipality, who looks after the day-to-day work. In case of the large cities, the State Government has constituted Municipal Corporation, which are headed by an elected Mayor and the Municipal Commissioner, appointed by the Government, looks after the routine work. At the Village level, the Sarpanch is the elected Chief and the Talati (Village Mantri) works as the Secretary to the Village Panchayat and looks after the day-to-day work. In view of the expanding role of the public administration in a state like Gujarat, the Government has taken-up many activities and has set up several offices. Such offices which came into the existence are as under:

- (1) Education
(Primary and Higher Education)
- (2) Agricultural and Research
- (3) Animal Husbandry and Poultry
- (4) Forest and Environment
- (5) Roads and Buildings, Bridges
- (6) Co-operation and Co-operative Societies
- (7) Industries, Small and Large as well as Cottage
- (8) Health and Medical Services, Medical Education and Research, Family Welfare and Nutrition
- (9) Information Department,

- (10) Irrigation Minor and Major
- (11) Social Welfare and Social Defence

The functions of above offices are managed and controlled by concerned Head of Departments and in some cases also by District and Taluka Panchayats. The task of providing primary education in rural areas has been entrusted to District Panchayats. The functions relating to Government of providing primary education is assigned by District Development Office and are controlled by the District Primary Education Officer. The secondary education is looked after by District Education Officer of Education Department. Primary education as well as higher secondary education provided by all types of institutions is governed by District Education Officer.

Agriculture activities have been delegated to District Panchayat to a large extent and District Agriculture Officer is in-charge for looking after agricultural produce including crops and vegetables. Similarly Animal Husbandry is also a Panchayat activity and routine work is controlled by the Deputy Director (Animal Husbandry) who sits in District Panchayat and takes care of animals and poultry farms. Besides, District Agriculture Office in Panchayat Offices such as Deputy Director (Agriculture) and other officials look after various aspects of agriculture for developing the sector as well as to extend necessary assistance to farmers at district level.

Besides Director, Animal Husbandry Officer of Panchayat offices such as Deputy Director (Animal Husbandry) Special Officers at Veterinary Offices etc. in state government animal husbandry department also monitor activities of the sector at district level.

Public Health in rural area is assigned to the District Panchayat under the Chief District Health Officer who looks after epidemics, malaria control, water borne diseases and district level administration of Public Health Centers. District and Talukas Hospitals and Referral Hospitals are being looked after by the District Civil Surgeon of medical services in the State, while Medical Colleges and Research activities attached with the respective Civil Hospitals are controlled by Medical Education and Research Wing.

Family welfare activities are also monitored by the District Health Officer. Chief District Health Officer is also functioning as District Registrar of Birth and Death of the district and Talati cum Mantri is also Registrar of Death and Birth for the respective villages. Anaemic mothers and children upto to the age of 14 are looked after by Nutrition Officer under the Nutrition Programme.

District Ayurvedic Officer looks after the Ayurvedic dispensaries and hospitals. They also take care of the Ayurvedic plants and medicines and gardens. The District Food and Drugs Officer generally looks after the quality of the food and drugs in the district. Labourers and workers who are working in registered units are covered under the Employees State Insurance Scheme.

The rural roads have been transferred to the District Panchayats and their maintenance is done by the Executive Engineer, Roads and Buildings Department. Minor irrigation works are transferred to the District Panchayat and Executive Engineer (Panchayat) of the Panchayat's irrigation office looks after water harvesting and check dams.

The Roads and Buildings Department of State Government looks after the maintenance of roads, buildings, bridges and government multi-storey buildings etc. Besides Panchayat officials, major district roads and the state highways are looked after by the Executive Engineer (Roads & Buildings). The large multi-purpose irrigation projects are controlled by State Government directly through its Executive Engineers.

District Industries Centre is functioning for the development of small village industries, handloom industries and the scope of industrial growth in the district. Besides, other departments are working for the rights of the industrial workers and rural labourers engaged in agriculture and others sectors.

Social welfare activities relating to the Scheduled Castes, Scheduled Tribes, Other Backward Castes and Other Backward Communities in the District are organized by the District Welfare Officer. Generally the schemes under Tribal Area Sub Plan and Special Component Plan are organized by the District Welfare Officer.

In each District Panchayat, District Statistical Officer of Directorate of Economics and Statistics looks after co-ordination of different development programmes. He is also Member-Secretary of District Planning Board. Similarly in every Collector

Office, District Planning Officer looks after development work of various Government (State and Centre) sponsored programmes.

Co-operative Societies i.e. Co-operative Milk Societies, Agricultural Produce Market Societies, Co-operative banking and other co-operative societies are controlled by the District Registrar Co-operative Societies.

One taluka of Mahesana district namely, Kalol and one taluka of Ahmadabad district, Dehgam have been transferred to Gandhinagar district. Vijapur taluka and Kalol taluka of Mahesana district are bifurcated and a new taluka of Mansa has come into existence and this newly created taluka Mansa has also been transferred to Gandhinagar district. Due to the reason the boundary of Gandhinagar district has been changed.

Talukawise List of New Towns added

Sl. No.	Name of Taluka	Name of Town	Location Code 1991	Location Code 2001
1	2	3	4	5
1	Kalol	Chhatral (INA)	-	40601000
2	Kalol	Kalol (INA)	-	40602000
3	Gandhinagar	Adalaj	43	40606000
4	Gandhinagar	Chiloda (Naroda)	71	40609000

Talukawise List of Declassified Towns

Sl. No.	Name of Taluka	Name of Village	Location Code 1991	Location Code 2001
1	2	3	4	5
1	Kalol	Saij (O.G.)	XV	50110102

Note : The Saij town of 1991 Census has been declassified and considered as an out growth of Kalol(M).

The area which formed the new Gandhinagar district had 3 towns in 1991 census. Saij town of Kalol taluka has been declassified and is treated as outgrowth in 2001 census. Also 3 new villages are created. The details are given in the following table.

There are 4 talukas as listed earlier, 10 towns and 291 villages in the district. Talukawise break up of towns and villages are shown in the following table.

Talukawise Number of Towns and Villages

Sl. No.	Name of Taluka	Number of Town	Number of Village	
			Total	Inhabited
1	2	3	4	5
1	Kalol	3	69	69
2	Mansa	1	50	50
3	Gandhinagar	5	74	74
4	Dehgam	1	98	98
Total :		10	291	291

Source : Village / Town Directory, 2001

The civic status of the 10 towns is as under.

Municipality	:	4
Notified Area	:	1
Industrial Notified area	:	2
Census Town	:	3
Total	:	10

Talukawise List of New Added Villages

1	Kalol	Himatpura	00471200
2	Kalol	Pratappura	00472300
3	Kalol	Rampura	00472200

(iv) Physical Features:

Gandhinagar district is situated in the central part of the middle peninsula. It lies between the parallels of latitude 23° 0' and 23° 3' and the meridians of longitude 72° 2' and 73° 2'. The length from north to south of this district/ territory is about 63.0 km and from east to west about 74.6 km. It is bounded on the north by Mahesana, on the north-east by Sabarkantha district, on the South east by Kheda. district, and on the south by Ahmadabad district. The area covered by this district is 2166.0 Sq.Km. and the rank of this district is 24th in comparison to other districts of the state.

Physiography :

Gandhinagar district forms a part of Gujarat plain and is sub-divided into two submicro regions namely Sabarmati plain and Khari plain on the basis of physiography, climate, geology, soils and natural vegetation.

River plain:

Physiographically the Sabarmati plain is an alluvial plain claimed by the river Sabarmati which flows in this region from north to south direction and divided the district into two parts. The region has a maximum height of 75 metres above M.S.L. The geology of this region pertains to alluvium, blown sand, etc. The soils of this region are Usterts-Ochrepts which is of deep shallow black, brown and alluvial soils of northern region. This region covers the major parts of the district.

The terrain of the Khari plain region is flat alluvial plain with minor undulations. The geological structure of this region is formed of alluvium, blown sand, etc. The soils of this region are classified as Usterts-Ochrepts type. This region covers Khari river's catchments area in the eastern parts of the district. Sabarmati plain bounds it from north and west and Ahmedabad district from south and east.

The Sabarmati Basin which height goes up to 100 metres above M.S.L. and the Mahesana low land which topography is flat and of sandy plain and the elevation is generally varies between 68 metres and 99 metres above M.S.L. are occupying parts of Kalol taluka and Khari-Meshwa plain which heights variation between 60 metres and 100 metres above M.S.L. is occupying Dehgam taluka of this district.

Drainage:

There are only three rivers flowing through the district, viz. the Sabarmati, the Khari and the Vatrak. The Sabarmati has an extensive catchment area. The courses of these rivers are given below.

The river Sabarmati originates at the place near Vekaria in the Rajasthan state. Thereafter it touches the borders of three districts in the following order, viz. Banaskantha, Sabarkantha and Mahesana. Subsequently it enters Gandhinagar district.

The river at present flow from the centre of the district. The river has high banks particularly in its upper reaches, where they sometimes rise to a height of 60 meters. The river enters this district near the village Rajpur. Thereafter it traverses near the villages of Pindfarada, Chekhalarni, Piplaj, Dolarana, Vasana, Pethapur, Lekavada, Indroda, Gandhinagar, Shahpur, Koba, Valad, Bhat, Motera, Koteshwar and Chiloda in this district. Out of its total length of 416 km. Sabarmati flows for only 34 km. in the Gandhinagar district.

The river Khari is a tributary of the Sabarmati river. The Khari issues near village Kesarpura of Himatnagar taluka of the Sabarkantha district. Out of its entire length of 160 km. the Khari flows for only 18 km. in the Gandhinagar district.

The river Vatrak rises from the hills of Dungarpur in Rajasthan. Out of its entire length of 125 km. Vatrak flows for only 20 kms. in the Gandhinagar district.

Climate:

The climate of this district is characterized by hot summer, cool winter and general dryness except in the south west monsoon months.

The cold season from December to February is followed by the hot season from March to May. The period from June to September is the south-west monsoon season followed by the transition or post monsoon period of October-November.

a) Temperature

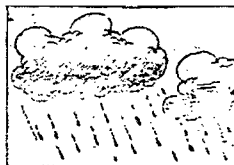

Temperature increases rapidly from February to May, which is the hottest month with the maximum temperatures at 41°C. and minimum at 26°C. in the year 1999. On individual days maximum temperatures may occasionally exceed 46°C. From November, day and night temperatures begin to drop rapidly. January is the coldest month with the daily maximum temperature at 29°C and the daily minimum temperature at about 14°C. The diurnal variations in temperature are large, being about 8°C during the monsoon to around 15°C in the rest of the year.

b) Winds:

Winds are generally light and moderate in summer and in the south-west monsoon season. They become stronger westerly to south-westerly winds prevailed in the south-west monsoon season. In October winds are from directions between west and north east. In November and December winds are mainly from directions between north and east. In January and February winds are again from direction between west and north-east. In the summer season the winds are pre-dominantly from directions between south-west and north-west.

c) Rainfall:

The rainfall in the district is received during the south-west monsoon from June to September. July being the rainiest month of the district. The annual rainfall of this district is 545.6 mm in the year of 1999. Monthly rainfall of this district is given below.

Monthly Rainfall, 1995 to 1999

(in mm.)

Sl. No.	Month	Rainfall				
		1995	1996	1997	1998	1999
1	2	3	4	5	6	7
1	May	0.0	0.0	0.0	0.0	3.3
2	June	0.0	22.0	484.0	113.3	179.7
3	July	245.0	173.0	182.0	279.3	270.3
4	August	31.0	194.0	255.0	92.7	12.0
5	September	36.0	83.0	12.0	295.0	13.3
6	October	0.0	34.0	7.0	43.3	67.0
Annual Rainfall		312.0	506.0	940.0	823.6	545.6

Source: Season and Crop Reports, Directorate of Agriculture, 1998, 1999

Economic Resources:

Economic resources are an important means of subsistence for the working people of the district. The details about economic resources of important sectors are given below in brief.

(1) Forestry:

The forest of Gandhinagar district falls under "Dry Deciduous Forest" type according to forest classification. Effects of biotic factors and soil conditions

have affected the forests. According to the figures available from the Forest Department for the year 1999, out of the total area of 2,166 square kilometres of the district, an area of about 20.43 square kilometres is covered as a reserved forest. The main products of these forests are zizyphus mauratiana (*Bordi*), Magnifera indica (*Aubo*), ficus infectoria (*piplo*), senegal (*Gorad*), catechu (*khair*), fire wood etc.

(2) Minerals and Mining:

There is no major mineral products in the district. Various type of minor minerals are clay and sand available in the district. The details of production and income are given below:

Major and Minor Mining Products and Income

Sl.No.	Products	1998-99		1999-2000		2000-01	
		Production (MT)	Income (RS.)	Production (MT)	Income (RS.)	Production (MT)	Income (RS.)
1	2	3	4	5	6	7	8
	Major Products	-	-	-	-	-	-
	Total Minor Products	1,469,727	7,635,000	12,311,290	5,768,544	1,327,714	7,595,154
	Grand Total	1,469,727	7,635,000	12,311,290	5,768,544	1,327,714	7,595,154

Source: Commissionerate of Geology and Mining, 2001

(3) Soil and Cropping Pattern:

The soil of this district is sandy to sandy loam and of goradu type. It retains moisture to some extent. In the areas near Pethapur, Kolavada and Vavol, it gradually varies from sandy to clay loam and sandy loam. The soil in this district is good for horticulture and there is a fairly good growth of fruit and other trees in this area.

The total area of this district is 2,166 Sq.Km of which 187.4 Sq.Kms are under cultivation. Of the cultivated area, 60% of the area grows food crops, among which bajri, jowar, wheat and vegetable crops are important. Cotton is the main non-food crop (cash crop). Bajri, Jowar, Paddy and Kodra are known as kharif crops as they are rain fed crops. Among them, paddy requires additional watering at regular intervals.

(4) Land and Land use Pattern:

The total land in the district was 2,166 Sq.Kms during 1998-1999. The land classification according to the different uses for the rural areas of the district is given below on the basis of information collected for the Village Directory.

Land Classification of Rural Area

(In '00 Hectares)

Sl. No.	Classification	Area as on 31.3.99
1	2	3
1	Forest	18.8
2	Irrigated	1,115.5
3	Unirrigated	520.0
4	Cultivable waste (including Gauchar and Groves)	187.4
5	Area not available for cultivation.	142.0
	Total	1,983.7

Source : Village Directory, 2001

(5) Tenancy:

There was no separate Act on tenancy in the former Bombay State before 1939. There were provisions of Section 83 of Land Revenue Code and Mamlatdar Court law only. The tenant was not secured of his tenancy rights in the Act. This tenancy lease was considered yearly and had to pay tenancy as per tradition or according to the agreement made with the land owner. In order to protect the tenants, the Bombay Tenancy Act, 1939 came into force in the erstwhile Bombay State. After independence of the country, it was necessary that the country is self-sufficient in agricultural production. It can be done only when the tillers of the land should have some definite rights over the land. With a view to effect control on efficient utilization of agricultural land and also to protect the tenants further and also to accept a definite policy and view for the country on agricultural land, The Bombay Tenancy and Agricultural Land Act, 1948 was enacted and it was brought into force since then. The Act of 1948 was amended five times. An important provision of 'Farmer Day' was inserted in the Act on 1-8-1956. According to this provision, if any person legally tilled the land of other person on 01-04-1957, he was entitled to purchase the said land. Even though Gujarat State was bifurcated from Bombay State in 1960, the said act applied to it is also as well.

Tenant means the person who held land on lease viz.

- (1) Tenant as per Section 4;
- (2) Protected tenant
- (3) Permanent tenant
- (4) The person who continued to possess the land

ANALYTICAL NOTE

with or without the consent of the land owner after appointed date and upto specified date or it is considered that he continued the possession of the land.

In Gujarat 1,049,056.4 hectares of land have been released and distributed to total 1,278,125 beneficiaries permanently under The Bombay Tenancy and Agricultural Land Act, 1948. Among the beneficiaries 177,171 were from Scheduled Castes, 258,132 from Scheduled Tribes and 842,822 from others category.

In case of Gandhinagar district, in all 14,932.1 hectares of land have been released and distributed to total 30,553 beneficiaries. Among the beneficiaries, 65 Scheduled Castes were allotted 37.2 hectares of land, and 30,488 beneficiaries under 'others' category were allotted 14,894.9 hectares of land.

(6) Agriculture:

a) Area under Major Crops:

The area under major crops for the years 1993-94, and 1997-98 is shown in the following statement.

Area under Major Crops

(in '00 Hectares)

Sl.No	Name of Crop	Area Under Major Crops	
		1993-94	1997-98
1	2	3	4
1	Paddy	211	205
2	Wheat	198	214
3	Bajri	405	381
4	Jowar	8	—
5	Ragi	—	—
6	Other cereals	14	22
7	Gram	1	—
8	Other pulses	70	57
9	Sugarcane	—	—
10	Groundnut	4	10
11	Cotton	72	91

Source : Season and Crop Report, Directorate of Agriculture, 1999

The area under wheat, other cereals, groundnut and cotton has increased while the area under paddy, bajri, jowar, gram and other pulses has decreased during 1997-98 as compared to the year 1993-94.

b) Average Yield per Hectare:

The average yield per hectare of the principal crops in the district during the year 1993-94 and 1997-98 is shown below.

Average Yield per Hectare

(In Kgs.)

Sl.No	Name of Crop	Average yield per Hectare	
		1993-94	1997-98
1	2	3	4
1	Bajri (Kharif)	458	1,439
2	Bajri(Summer)	1,882	2,237
3	Paddy	2,000	2,024
4	Wheat	2,477	3,146
5	Groundnut	1,816	1,298
6	Cotton	544	401

Source: Season and Crop Report, Directorate of Agriculture, 1999.

It can be seen from the above statement that for Paddy average yield had remained more or less static for both the years, while for Bajri (kharif), Bajri (Summer) and wheat big jumps are observed while groundnut has decreased during 1997-98 as compared to the year 1993-94.

(7) Irrigation:

Source of Irrigation:

The area irrigated by different sources in the district for the years 1993-94 and 1997-98 is presented below.

Area under Irrigation by Source

(In '00 hectares)

Sl. No.	Source of Irrigation	1993-94		1997-98	
		Net	Gross	Net	Gross
1	2	3	4	5	6
1	Government canals	-	-	-	-
2	Tanks	-	-	-	-
3	Wells	849	1,028	811	1,199
Total		849	1,028	811	1,199

Source: Season and Crop Report, Directorate of Agriculture, 1999.

The above figures show that well is the only source of irrigation in the district.

(8) Animal Husbandry:

a) Livestock :

Cattle wealth occupies a pivotal place in the rural economy of the district. According to the livestock census of 1992 and 1997, the livestock population in the district is shown below.

Livestock			
Sl. No.	Livestock	Year	
		1992	1997
1	2	3	4
(A)	Total Livestock	363,702	400,754
1	Cattle (cross breed)	7,430	14,221
	(a) Male over 2.5 years	520	768
	(b) Female over 2.5 years	4,351	9,024
	(c) Young stock	2,559	4,429
2	Cattle (Indigenous)	74,049	69,708
	(a) Male over 3 years	30,213	17,504
	(b) Female over 3 years	24,809	37,352
	(c) Young stock	19,027	14,852
3	Buffaloes	217,156	222,337
	(a) Males over 3 years	1,174	5,928
	(b) Female over 3 years	125,415	147,761
	(c) Young stock	90,567	68,648
4	Sheep	23,112	21,819
5	Goats	32,900	37,505
6	Horses and ponies	78	89
7	Camels	3,794	2,843
8	Pigs	1,031	3,325
9	Other livestock	4,152	28,907
(B)	Poultry	94,430	93,586

Source: (1) Directorate of Economics and Statistics, Livestock Census - 1992

(2) Directorate of Animal Husbandry, Livestock Census - 1997

The above table reveals that overall there is an increase in the total livestock in the year 1997 as compared to 1992 livestock census. In case of bullocks and cows, the cattle population has increased for all its sub categories except cattle (Indigenous). In case of buffaloes also, except young stock an increasing trend has been observed. Sheep, Camels, and other livestock are decreased. Poultry has decreased in 1997 as compared to 1992.

b) Agricultural Implements:

According to the livestock census conducted in the State, the comparative data for agricultural implements in the district for the years 1992 and 1997 are shown in the following table.

Agricultural Implements			
Sl. No.	Name of Agricultural Implements	Year	
		1992	1997
1	2	3	4
1	Plough	26,785	10,062
	(a) Wooden	16,782	5,931
	(b) Iron	10,003	4,131
2	Carts	6,928	3,639
3	Oil engines	919	64
4	Electric Motors & Pumps	1,522	123
5	Tractors	2,277	2,571
6	Wheat Thresher	1,284	-

Source: (1) Directorate of Economics and Statistics, Livestock Census - 1992

(2) Directorate of Animal Husbandry, Livestock Census - 1997

The number of agricultural implements except tractors has drastically decreased during the year 1997 as compared to the year 1992.

(9) Fisheries :

As the district has neither seacoast nor big perennial rivers, fishing activity is on a negligible scale. Only a few persons carry it on in ponds or in the rivers.

However, this activity does not provide substantial work and income to them. Moreover, as the majority of population is vegetarian, there is very little possibility of development of fisheries in this district. The Department of Fisheries has installed a few aquarium tanks with various types of fish for exhibition.

(10) Industry:

The total number of registered factories and average number of daily workers employed by major groups of industries for the year 1998 and 1999 are shown in the following statement. Among the registered factories, the most important establishments from the point of employment is machinery and equipments other than transport equipments and non metallic mineral products. The information presented below is collected from Chief Inspector of Factories.

Distribution of Important Industrial Establishments by Major Industry Group

Sl. No.	Major Group of NIC (National Industrial Classification)	Description	As on 31.12.98		As on 31.12.99

(11) Trade and Commerce:

This category includes wholesale and retail trade of all kinds and other commercial activities like financial, insurance, real estate and business services. The big industrial unit like Sintex industries and IFFCO are in Gandhinagar district. The district is well known for plastic goods, machinery parts, electrical

equipments milk, fertilizer etc. Table No. 47 gives details of the most important commodities manufactured and exported out of towns as per 2001 Census. The commercial and co-operative banking facilities available in the district are shown in the following Statement.

Villages Having Banking Facility

(12) Transport and Communication:

Transport and Communication facilities are considered as an administrative necessity as well as a public convenience. Moreover; a well-knit transportation system is a pre-requisite for the social and economic development of any district.

a) Road:

The linking of one place with other by road is very essential to provide good transport system. The information regarding roads available in Gandhinagar district for the year 1998-99 to 2000-01 are given in the statement below. This statement includes the information of National and State highways, district roads and village roads. In Gandhinagar district according to 2001 census, 283 villages and ten towns are connected with pucca roads and 8 villages are connected with kachcha roads.

telegraph and telephone are available respectively in 214, 9 and 252 villages.

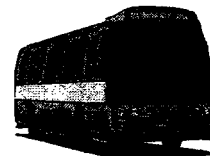

Communications Facilities

Sl. No.	Type of Communication Amenities	Number of Villages having Facilities
1	2	3
1	Post Offices	214

Source: Roads and Buildings Department, Gandhinagar, 2001.

b) Railway :

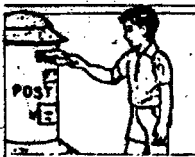

There are 19 villages having railway facilities in Gandhinagar district. Gandhinagar district is connected with Delhi, Mumbai and Ahmadabad.

**c) Ports:-**

There is no sea port in this district.

d) Posts and Telegraphs:

The following statement shows number of villages in the district having post, telegraph and phone facilities. As regards rural areas of the district, the facilities of post,

**(13) Electricity:**

Electricity is one of the important necessities for the economic development of the district. The main source for power supply in the district is Gujarat Electricity Board. In the district all the villages are electrified.

**(14) Gram Panchayats, its Composition, Jurisdiction and Role in the Development of Village and its Economy:**

The system of Panchayati Raj was introduced in the year 1963 in Gujarat State. Under this set up, the three tier system was introduced namely, The District

Panchayat, The Taluka Panchayat and The Gram Panchayat.

Gram Panchayat is an important institution of self-government. The Gram Panchayat is formed for a village or a group of villages. The Gram Panchayat is constituted for a local area with the population of less than 10,000. Such local area may be revenue village or a group of revenue villages or hamlets forming part of a revenue village or such other administrative unit or part of thereof. The number of members of Gram Panchayat varies from 9 to 15. The tenure of Gram Panchayat is of five years. The people of village elect Sarpanch and Vice-Sarpanch (Up-Sarpanch) and other members of the Panchayat. Various Committees like, Social Justice Committee and Standing Committee are formed. In the year 1993 Government of India enacted 73rd Constitutional Amendment regarding provisions of Panchayati Raj and implementation of this act in Gujarat started from 15th April 1994. By this constitutional amendment, Panchayats are given constitutional status. Regular and timely election, participation of women and backward classes, formation of separate State Election Commission and rotation system in electing the heads of the various committees are other significant amendments in the act. Decentralised planning process and active participation of people is the soul of the Panchayati Raj Act. The powers for decentralised planning, implementation and development are delegated to the Panchayats.

The primary functions of the District/Taluka Panchayats are providing facilities for primary education, health, drinking water, electricity, constructions and maintenance of roads, bridges etc., maintenance of Gauchars, organising relief work at the time of scarcity and drought situation, sanitation and social welfare. Arrangements for housing facilities for below poverty line people and rural development schemes are implemented by Panchayats. Gram Panchayats also implement important programmes like, 'food for work' and other programmes beneficial for the local people. Thus, Panchayats play an important role in the development of village and its economy. There are 13,761 Gram Panchayats in Gujarat State. Out of 291 villages in Gandhinagar district, there are only 9 Group Panchayat and 280 independent Gram Panchayats.

(v) **Census Concepts :**

Building:

A 'building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment, places of worship, godowns, stores, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate building.

Permanent Houses:

Houses, the walls and roof of which are made of permanent materials. The Material of wall can be anyone from the following namely Galvanized iron sheets or other metal sheets, Asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials namely tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent Houses:

Houses in which either wall or roof is made of permanent materials and the other is made of temporary material.

Temporary Houses:

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room:

A room is treated as a dwelling room if it has walls with a doorway and a roof should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of a 2 meters. A dwelling room would include living room, bedroom, dining room drawing room study room, servant's room and other habitable rooms. Kitchen, Bathroom, latrine, Store-room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office. etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servants household tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room which is shade by more than one household has not been counted for any of them. If two household have a dwelling room each but in addition also share a common dwelling room. Then the common room has not been counted for either or of the household.

Census House:

A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or, staircase, etc. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of a different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by

different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storied ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storied structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village:

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data.

In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town/Urban Area:

The following areas are treated as towns/urban areas :

- (a) All places with a municipality, municipal corporation, cantonment board or notified town area committee, etc.
- (b) All other places which satisfy or are expected to satisfy the following criteria simultaneously
 - i) A minimum population of 5,000;
 - ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and
 - iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

City :

Towns with population of 1, 00,000 and above are called cities.

Urban Agglomeration:

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

- (a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and
- (b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

- i) a city or town with one or more contiguous outgrowths;
- ii) two or more adjoining towns with their outgrowths; and
- iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household:

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Households:

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household:

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Household.

Scheduled Caste and Scheduled Tribe:

Article 341(1) of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342(1) similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State is given below

List of Scheduled Castes:

1. Ager
2. Bakad, Bant
3. Bawa-Dedh, Dedh Sadhu

Scheduled Tribes:

1. Barda
2. Bavacha, Bamcha

* The area comprised of Jamnagar and Junagadh districts.

Language and Mother Tongue:

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate:

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate:

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational Level:

The highest level of education a person has completed.

Work:

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All

persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker:

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as "Main worker".

Marginal Worker:

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal- worker'

Non Worker:

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator:

For purposes of the Census a person is classified as cultivator, if, he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural laborers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton,

cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel-nuts (area).

Agricultural Labourer :

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural laborer has no right of lease or contract on land on which she/he works.

Household Industry Worker:

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker:

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural laborer or in Household Industry is termed as an 'Other-Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural laborers or household industrial workers, are 'Other Workers'.

Work Participation Rate:

Percentage of workers (main + marginal) to total population

Population Density:

Population density is the number of persons inhabited per square kilometer of the area.

Age:

Age is measured in terms of the completed number of years.

Sex Ratio:

Numbers of females per 1,000 males in a population.

(vi) Non Census Concepts :

Improved Drinking Water:

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

System of Sewerage:

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are, not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of Latrine and Method of Disposal of Night Soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility:

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially lives births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below.

Crude Birth Rate (CBR) :

Ratio of the numbers of live births in a year to the mid year population. (normally expressed per 1,000 population).

$$CBR = \frac{\text{Numbers of live births during the year}}{\text{Mid -year Population}} \times 1,000$$

Crude Death Rate (CDR) :

Ratio of the numbers of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Numbers of deaths during the year}}{\text{Mid -year Population}} \times 1,000$$

Natural Growth Rate (NGR) :

Natural Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

$$NGR = CBR - CDR$$

Age Specific Fertility Rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Numbers of live births in a particular age group}}{\text{Numbers female population of same specified age group}} \times 1,000$$

Age Specific Marital Fertility Rate (ASMFR):

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Mid-year married female population of the same age group}} \times 1,000$$

General Fertility Rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1,000$$

General Marital Fertility Rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age group (15-49) years}} \times 1,000$$

Total Fertility Rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TFR} = \frac{5 \times \frac{\sum_{15-19}^{45-49} \text{ASFR}}{15-19}}{1,000}$$

Total Marital Fertility Rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TMFR} = \frac{5 \times \frac{\sum_{15-19}^{45-49} \text{ASMFR}}{15-19}}{1,000}$$

Age-Specific Mortality Rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$\text{ASMR} = \frac{\text{Number of deaths in a particular age group}}{\text{Mid-year population of the same age group}} \times 1,000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (q5MR)

Infant Mortality Rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1,000$$

Infant mortality rate comprises of two parts. viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal Mortality Rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days under during the year}}{\text{Number of live births during the year}} \times 1,000$$

Early Neo-natal Mortality Rate (ENMR) :

$$\text{ENMR} = \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Late Neo-natal Mortality Rate (LNMR) :

$$\text{LNMR} = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Post Neo-natal Mortality Rate (PNMR) :

$$\text{PNMR} = \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1,000$$

Peri-natal Mortality Rate (PMR) :

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$\text{PMR} = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1,000$$

Still Birth Rate (SBR) :

$$\text{SBR} = \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Maternal Mortality Rate (MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and childbirth per 100,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100,000$$

Eligible Couple (Couples per 1,000 population):

Number of currently married females in the age group 15-44 years per 1,000 persons of all ages.

Child Woman Ratio (0-4) :

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child Woman Ratio (5-9) :

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :

- (i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence

after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

- (ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.
- (iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International Migration :

The migrational movements are of three types

- (i) Migration within the state itself with its components
 - (a) Migration within the district of enumeration (intra district migration)
 - (b) Migration from one district of state to another district of state (inter district migration),

- (ii) Migration from one state to another State of the country (inter-state migration),
- (iii) Migration from one country to another country.

The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban Components of Migration :

Rural or Urban status in respect of migrants had been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic Status of Urban Units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size Class of UA/Town :

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population is classified as Class I UAs./towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5(1,000,000-1,999,999) M4(500,000-999,999); M3(300,000-499,999), M2(200,000-299,999) & M1(100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum Area:

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by

reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City:

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size. problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population and its Distribution

(a) Distribution of population in rural-urban areas:

According to the 2001 Census, the total population of Gandhinagar district is 1,334,455 comprising 697,999 males and 636,456 females. This population of the district is about 2.6 per cent of the State population and rank at 20th place among the 25 districts of the state. There are 4 talukas in the district. In all 291 villages are there and none of them is uninhabited. The total urban population in the district is spread over in 10 towns. Out of the total population of the district about 65 per cent lives in rural areas, while 35 per cent lives in urban areas.

(b) Size class and status of towns, Population growth, Density, Sex ratio, Work participation rate, Details of Literacy, availability of University education in the District :

The statement shown below gives the position and number of urban units in size class for 2001 Census.

ANALYTICAL NOTE

Sl. No.	Name and Civic status of Town		Size and class of town	Population
1	2		3	4
1	Chhatral (INA)	INA	VI	1,680
2	Kalol (INA)	INA	VI	700
3	Kalol*	M	I	112,013
4	Mansa	M	III	27,922
5	Gandhinagar	NAC	I	195,985
6	Adalaj	CT	V	9,776
7	Chandkheda	M	II	55,504
8	Motera	CT	III	21,141
9	Chiloda (Naroda)	CT	VI	4,457
10	Dehgam	M	III	38,082

*Town having out growths.

According to the 1991 Census the total population of the district was 1,077,406. There has been net addition of 257,049 persons during 1991-2001. The decadal growth rate of district is 23.9 percent. The growth rates for the rural and urban areas of the district are 13.7 and 48.5 per cent respectively. The growth rate of urban population is very high in the district. The highest growth of urban population has taken place in Gandhinagar taluka.

The density of population in Gandhinagar district is 616 per sq. km. against the state average of 258 persons.

There are 912 females for every thousand males in Gandhinagar district. The sex ratio figures for rural and urban areas of the district are 925 and 888 respectively. It is also observed that the proportion of female in rural area is higher than that of urban areas. Among the talukas, the highest sex-ratio of 935 has been recorded in Mansa and Dehgam talukas and the lowest of 898 is recorded in Gandhinagar taluka. In urban area also Dehgam has the highest sex ratio of 916 and the lowest of 878 in Kalol taluka.

Sex ratio in age-group 0-6 is 813 in the district, as a whole. In rural areas, this ratio is 824 while in urban areas it is 790.

The work participation rate is defined as percentage of total workers to total population. In the same way it is defined for main workers and marginal workers. According to 2001 Census, the total workers including main and marginal workers constitute 41.5 percent of the total population of the district. Of the total workers, the share of the main

workers is 35 per cent and the marginal workers is 6.5 per cent. The remaining population belongs to the category of non-workers.

As per 2001 Census, among the main workers male participation rate in the district is 49.3 per cent and corresponding proportion of female is 19.4 per cent. Male and female marginal workers account for 3.8 and 9.5 per cent respectively. The proportion of female marginal workers is substantially higher than males, as the females are attending to one or more economic activities in addition to their household duties to enhance the family income.

A person who can read and write in any language with understanding is considered as 'literate' in census. All children of age below 7 years are treated as 'illiterates'.

As per 2001 census, in Gandhinagar district, 879,834 persons are literates, which constitutes 76.6 per cent of the total population. The proportion of male and female literates in the district are 87.7 and 64.6 per cent respectively. The literacy rate of males is higher than that of the females. The gapage of male and female literacy rates is 23.2 percentage points.

The total literacy rates of rural and urban areas are 72.0 and 84.8 per cent respectively. The proportion of male and female literates in rural are is 85.7 and 57.6 per cent respectively. In urban areas this proportion are 91.3 and 77.6 per cent respectively.

There are 21 colleges in the district. Among them there are six commerce colleges, three science colleges, seven arts colleges and four Gramsewa Vidhyapith in this district. In addition to this Krishi Vidhyalaya, Polytechnic and Engineering Colleges are in the district. National Institute of Fashion Technology (NIFT) is also in Gandhinagar district.

Religion:

Religion forms an integral part of Indian Social system. In the pre-Independence census reports, the data on religions was being presented for 9 major religions viz. Hindu, Muslim, Tribals, Christian, Sikh, Jain, Buddhist, Parsi, Jew and others. However, since the 1951 census, the data on religion has been presented for 6 major religions viz. Hindu, Muslim, Christian, Sikh, Jain and Buddhist. Besides, the minor

religions have been classified under the category of 'other'. The data on religion collected and presented by the Indian Census is the basic data of intense use for the researchers, anthropologists, sociologists, demographers, administrators, planners and even for a common man.

In 2001, the Indian Census collected the religion data in question No.7 of the Household Schedule and recorded the same under the six major religions. Other religions were recorded in actual as answered by the respondent and classified under the category of 'others'. Religion not stated has been added for those persons who have not stated their religion at the time of canvassing the status of religion.

Percentage Distribution of Population by Major Religions in Gujarat State and Gandhinagar district, 2001.

Sl. No.	Religion	Gujarat		Gandhinagar	
		Population	Percentage	Population	Percentage
1	2	3	4	5	6
1	Hindu	45,143,074	89.1	1,269,766	95.2
2	Muslim	4,592,854	9.1	50,559	3.8
3	Christian	284,092	0.5	3,548	0.3
4	Sikh	45,587	0.1	2,013	0.2
5	Buddhist	17,829	0.0	361	0.0
6	Jain	525,305	1.0	7,769	0.6
7	Other	28,698	0.1	61	0.0
8	Religion not stated	33,578	0.1	378	0.0

Source: Census of India, 2001

The comparative data on religion of Gujarat State and Gandhinagar district is given in the above table. It is observed that at State level 89.1 per cent of population is Hindus. In Gandhinagar district the percentage is higher (95.2). Next to Hindu religion is Muslim which constitutes about 3.8 per cent at district level while at State level it is 9.1 per cent. For other religions, namely Christian, Sikh, Buddhist and Jain, these religions have more or less same pattern at State and district level and their proportions are negligible.

As per 2001 Census, the distribution of population of major religious communities by rural and urban areas of Gandhinagar district is as under.

Religion	Number of Followers	Population	
		Rural	Urban
1	2	3	4
Hindu	1,269,766	841,240 (66.3)	428,526 (33.7)
Muslim	50,559	23,274 (46.0)	27,285 (54.0)
Christian	3,548	332 (9.4)	3,216 (90.6)
Sikh	2,013	193 (9.6)	1,820 (90.4)
Buddhist	361	82 (22.7)	279 (77.3)
Jain	7,769	1,810 (23.3)	5,959 (76.7)
Other	61	10 (16.4)	51 (83.6)
Religion not stated	378	254 (67.2)	124 (32.8)

* Recasted Population

Table 1 records that the decadal variation in the population of the district is of 23.9 per cent. For rural and urban areas, these percentages are 13.7 and 48.5 respectively. In urban area the variation is remarkably high. Talukawise comparison shows that taluka as a whole, the highest percentage (36.3) is recorded for Gandhinagar taluka and the lowest is 10.4 per cent

for Mansa taluka. Out of the total population of district 65.0 per cent lives in rural areas while 35.0 per cent lives in urban areas in the district. Gandhinagar taluka has recorded the highest urban population of 50.2 per cent whereas, Mansa has the lowest urban population of 13.8 per cent of total population.

Table 2 gives the information of absolute number and percentages of inhabited villages falling in specified range of population size of villages and number of males and females for each population range at taluka level in the district. Out of 291 inhabited villages, 3 villages (1.0 per cent) have the population below 200 persons. In the size class of 200-499 persons, there are 15 villages constituting 5.2 per cent of the total villages of the district while

the size class of 500-999 population is having 34 (11.7 per cent) villages. As many as 27.1 per cent of villages are having the population size class of 1,000-1,999. 112 villages (38.5 per cent) are having the population size class of 2,000-4,999 while 44 villages (15.1 per cent) are falling in the population range of 5,000-9,999. Only 4 villages constituting 1.4 per cent of total villages are having the population size range of 10,000 and more.

21-50	0	0.0	0	0.0
51-100	3	1.0	1,674	0.2
101-200	23	7.9	22,000	2.5
201-300	43	14.8	78,138	9.0
301-500	123	42.3	375,833	43.3
501 +	97	33.3	388,688	44.8
Not known	0	0.0	0	0.0
District Total:	291	100.0	867,195	100.0

Population Density (Rural) of the district : 437

Table 4 gives the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of villages 123 i.e. 42.3 per cent of the total inhabited villages of the district fall in the density range of 301-500 persons having 43.3 per cent population. In the lowest

range of 0-10 persons per square kilometer there are 2 villages (0.7 per cent) with 0.1 per cent population. It is interesting that 33.3 per cent of the villages have density more than 501 and it covers the maximum population of 44.8 per cent of rural areas in the district.

TABLE 5
SEX RATIO OF STATE AND DISTRICT, 1901-2001

Sl. No.	Census Year	Gujarat State			Gandhinagar District		
		Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8
1	1901	954	951	965	952	947	996
2	1911	946	943	960	935	930	987
3	1921	944	947	931	923	920	957
4	1931	945	948	934	943	944	938
5	1941	941	954	898	913	916	887
6	1951	952	964	920	991	999	925
7	1961	940	956	896	961	973	868
8	1971	934	951	893	936	950	868
9	1981	942	959	905	943	957	889
10	1991	934	949	907	934	948	900
11	2001	920	945	880	912	925	888

Table 5 gives the detail about the sex ratio of state and district according to 1901 to 2001 Censuses. As per 2001 Census sex ratio of 912 females per 1000 males has been recorded in the district against 920 of

the state. The sex ratio of the district Gandhinagar for the years 1901 to 1941 are lower than the State sex ratios while for the years 1951 to 1981, they are higher. Again for the year 1991 both are equal.

TABLE 6
SEX RATIO BY TALUKAS, 2001

Sl. No.	Name of Taluka	Sex Ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Kalol	904	920	878
2	Mansa	935	940	904
3	Gandhinagar	898	910	886
4	Dehgam	935	938	916
	District Total:	912	925	888

Table 6 gives sex ratio for total, rural and urban areas at taluka level as per 2001 Census. There are 912 females per 1,000 males in the district. Considering talukawise sex ratio, it is seen that the highest sex ratio of 935 is registered for two talukas namely Mansa and Dehgam. The lowest of 898 is recorded for Gandhinagar taluka. The sex ratio in the

rural areas of the district is 925 which is higher than the district sex ratio. For the urban area the same is 888. Considering talukawise comparison higher sex ratios in rural as well as urban areas are recorded in Mansa and Dehgam as compared to Kalol and Gandhinagar.

TABLE 7
SEX RATIO BY TALUKAS / C.D. BLOCKS, 2001

Sl.No.	Name of Taluka/C. D. Block	Sex Ratio
1	2	3
1	Kalol	920
2	Mansa	940
3	Gandhinagar	910
4	Dehgam	938
	District (Rural) Total:	925

Table 7 gives Taluka /C.D. Blockwise sex ratio for rural population in the district. The sex ratio in rural areas of the district as a whole is 925 females per 1,000 males. The highest sex ratio of 940 is found

in Mansa taluka while the lowest of 910 is recorded in Gandhinagar taluka. The sex ratios of Kalol and Gandhinagar are lower than the district (Rural) sex ratio.

TABLE 8
SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of Sex Ratio for Villages	Number of Inhabited Villages	Percentage of Villages in each Range	Population 2001	Percentage Distribution of Population
1	2	3	4	5
Less than 700	3	1.0	8,697	1.0
700-749	1	0.3	3,697	0.4
750-799	7	2.4	28,440	3.3

850-899	25	8.6	49,452	5.7
900-949	138	47.4	475,148	54.8
950-999	85	29.2	247,495	28.5
1000-1099	19	6.5	35,570	4.1
1100+	3	1.0	492	0.1
District Total:	291	100.0	867,195	100.0

Table 8 gives distribution of villages by 9 different sex ratio ranges based on 2001 Census. The maximum number of 138 villages accounting for 47.4 per cent of the total villages having 54.8 per cent population of the district, fall in the sex ratio range of 900-949,

followed by the sex ratio range of 950-999, in which there are 85 villages (29.2 per cent) having population of 28.5 per cent. The highest sex ratio range of 1,100 and more have only 3 villages which cover only 0.1 per cent rural population.

Sex ratio (Urban) for the district: 888

Note : UA = Urban Agglomeration

Ahmadabad UA is spread over in three talukas and two districts, Ahmadabad City and Daskroi talukas come from Ahmadabad district and Gandhinagar taluka comes from Gandhinagar district.

Table 9 gives sex ratio of urban area of the district. The sex ratio in urban area of the district is 888 females per 1,000 males as a whole. The lowest

one is of Chhatral INA 699. The highest 957 is of Adalaj.

TABLE 10

SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUKAS, 2001

Sl. No.	Name of Taluka	Total / Rural / Urban	Total Population in 0-6 Age Group			Sex Ratio for 0-6 Age Group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Kalol	Total	44,074	24,260	19,814	817
		Rural	29,433	16,106	13,327	827
		Urban	14,641	8,154	6,487	796
2	Mansa	Total	26,772	15,095	11,677	774
		Rural	23,199	13,038	10,161	779
		Urban	3,573	2,057	1,516	737
3	Gandhinagar	Total	76,001	42,340	33,661	795
		Rural	41,765	23,115	18,650	807
		Urban	34,236	19,225	15,011	781
4	Dehgam	Total	38,849	20,711	18,138	876
		Rural	33,383	17,783	15,600	877
		Urban	5,466	2,928	2,538	867
District Total:		Total	185,696	102,406	83,290	813
		Rural	127,780	70,042	57,738	824
		Urban	57,916	32,364	25,552	790

Table 10 gives the details about population of age group 0-6 years and sex ratio for total, rural and urban areas in respect of each taluka of the district. Total population in age group 0-6 years is 185,696 comprising 102,406 males and 83,290 females. The total sex ratio in this age group works out to 813 in

the district. The proportion of females in rural areas is higher than that of urban areas and also higher than the district ratio for the age-group. The sex ratio for rural and urban areas comes out to 824 and 790 respectively.

TABLE 11
SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUKAS / C.D. BLOCKS, 2001

		Urban	38,082	2,840	1,125	7.5	3.0
District Total:		Total	1,334,455	115,955	17,681	8.7	1.3
		Rural	867,195	51,203	4,696	5.9	0.5
		Urban	467,260	64,752	12,985	13.9	2.8

Table 14 shows the distribution of Scheduled Castes and Scheduled Tribes population with their percentage distribution to total population at taluka level with rural and urban areas of the district. It can be seen that out of total district population of 1,334,455 as many as 8.7 per cent belongs to Scheduled Castes and 1.3 per cent belongs to Scheduled Tribes. The percentage of Scheduled Castes population constitutes 5.9 percent in rural areas

and 13.9 per cent in urban areas in the district. The highest percentage of Scheduled Castes population is recorded in Kalol taluka (10.5 per cent) while the lowest is in Mansa (5 per cent). The proportions of Scheduled Tribes population are 0.5 and 2.8 per cent in rural and urban areas respectively. The highest Scheduled Tribes population in the district is mainly concentrated in Gandhinagar (2.3 per cent).

TABLE 15
NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TALUKAS / C.D. BLOCKS, 2001

Sl. No.	Name of Taluka / C.D. Block	Total Population	Total Scheduled Castes Population	Total Scheduled Tribes Population	Percentage of Scheduled Castes Population to Total Population	Percentage of Scheduled Tribes Population to Total Population

District (Rural) Total:		867,195	51,203	4,696	5.9	0.5

Table 15 gives the details about the talukawise distribution of Scheduled Castes and Scheduled Tribes population of rural areas of the district. Out of the rural population of the district, 5.9 per cent population is recorded as Scheduled Castes and 0.5 per cent as Scheduled Tribes. The highest Proportion of 7.3 per

cent of Scheduled Castes population is recorded in Kalol taluka and the lowest of 4.6 per cent in Dehgam taluka. Out of 4 talukas of the district two talukas Mansa and Gandhinagar have 0.6 per cent and other 2 talukas, Kalol and Dehgam have 0.5 per cent Scheduled Tribes population.

TABLE 16
PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Castes Population to Total Population	Number of Villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5

76 and above	0	0.0	0	0.0
District Total :	291	100.0	51,203	100.0

Table 16 gives the details about the number of villages according to the proportion of Scheduled Castes population to their total population in 9 different ranges of percentage at district level. The table reveals that 42 (14.4 per cent) villages of the district do not have any Scheduled Castes population.

117 villages have Scheduled Castes population in the percentage range of 5-10 per cent of Scheduled Castes population followed by 105 villages having less than 5 per cent Scheduled Castes population. Also it can be seen that none of the villages of the district have more than 40 per cent Scheduled Castes population.

TABLE 17

PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage Range of Scheduled Tribes Population to Total Population	Number of Villages	Percentage	Scheduled Tribes Population	Percentage

76 and above	0	0.0	0	0.0
District Total :	291	100.0	4,696	100.0

Table 17 gives the details about the number of villages according to the proportion of Scheduled Tribes population to their total population in 9 different percentage ranges at district level. It is interesting that maximum of 1.3 per cent Scheduled Tribes population is recorded. Only 6 villages out of

total 291 villages in the district have 5 to 10 per cent Scheduled Tribes population and 132 villages have less than 5 per cent Scheduled Tribes population. More than 50 per cent (52.6) of villages have no Scheduled Tribes population.

	Sex ratio (Urban) for the district:	902	843

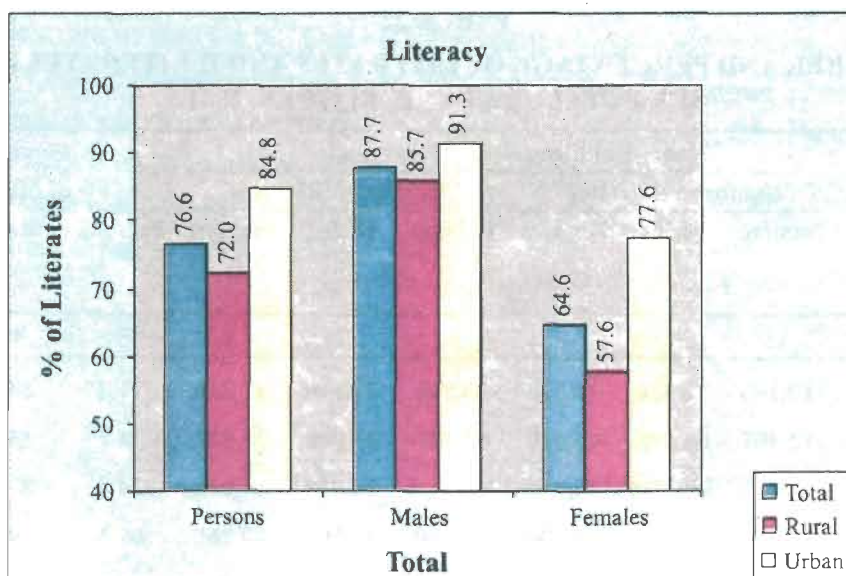

Note : UA = Urban Agglomeration.

Ahmadabad UA is spread over in three talukas and two districts, Ahmadabad City and Daskroi talukas come from Ahmadabad district and Gandhinagar taluka comes from Gandhinagar district.

Table 20 shows sex ratio among Scheduled Castes and Scheduled Tribes in each urban agglomeration/ town of the district. In urban area, sex ratio of Scheduled Castes is 902 for the district. Table shows that the highest sex ratio of 1,121 is recorded for Adalaj (CT). The same for Scheduled Tribes is 1,333

for Chhatral INA (INA). The sex ratio for Scheduled Tribes population of the urban area of the district is 843. As noted in table 18 above in Kalol INA (INA) not a single person of Scheduled Castes or Tribes is recorded.

TABLE 21

Table 21 shows talukawise literacy rates with the absolute number of literates and illiterates for the district with rural and urban areas separately. As per 2001 Census, the proportion of effective literates to total population is 76.6 per cent in the district, while this proportion in rural area is 72.1 per cent against 84.8 per cent in urban areas. In the district the literacy rate of males is 87.7 per cent which is higher than that of females having literacy rate of 64.6 per cent. Among the talukas Gandhinagar tops with 80.9 per

cent literates (also higher than the district literacy rate) followed by Kalol with 76 per cent. Dehgam taluka shows the lowest literacy rate of 68.8 per cent in the district. The gap between male and female literacy is 23.2 percentage points in the district as a whole. Such gap in urban literacy is significantly low of 13.7 percentage points while it is 28.2 percentage points in rural areas. The gap in male-female literacy rate at taluka level is the highest 32.0 per cent for Dehgam taluka.

TABLE 22
NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY

4	Dehgam	120,762	77,332	43,430	91,409	32,143	59,266	67.5	84.3	49.9	34.5
District (Rural) Total:		532,777	326,139	206,638	334,418	124,331	210,087	72.1	85.7	57.6	28.2

Table 22 reveals the literates effective and literacy rates along with absolute number of literates and illiterates for the rural population at taluka level in the district. In the district 72.1 per cent of the rural population is literate. Significantly a wide gap of 28.2 percentage points in literacy rates between males and females has been registered. Among the talukas,

Gandhinagar taluka shows the maximum literacy rate of 74.4 per cent while the lowest has been observed in Dehgam taluka (67.5 per cent). Considering sexwise literacy rates, it is seen that Gandhinagar taluka has the maximum literacy rate for male (87.4 per cent) and for female the highest is in Mansa (62.0 per cent).

TABLE 23
DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of Literacy Rate for Villages	Number of Inhabited Villages	Percentage Distribution of Villages	Population	Percentage Distribution of Population
1	2	3	4	5

100	1	0.3	77	0.0
District Total:	291	100.0	867,195	100.0

Literacy Rate for District: 76.6

Table 23 gives the distribution of villages in different ranges of literacy rate in the district. Out of 291 villages in the district one village accounting for 0.3 per cent of the total villages is having the literacy rate range 31-40. 8.4 per cent of the population of 31 villages is having the literacy rate range of 51-60. Maximum population in percentage terms (52.3 per

cent) of 134 villages accounting for 46 per cent of the total villages is having the literacy rate range of 71-80. Total population of 77 of one village is having cent per cent literacy. 85 villages with 28.3 per cent of the population are having the literacy rate range of 61-70 per cent.

Note : UA = Urban Agglomeration.

Ahmadabad UA is spread over in three talukas and two districts, Ahmadabad City and Daskroi talukas come from Ahmadabad district and Gandhinagar taluka comes from Gandhinagar district.

Table 24 shows the absolute number of literates and illiterates along with literacy rates in urban areas of UA/Town level in the district. As much as 84.8 per cent of the urban population in the district is literate. 91.3 per cent of male population is literate while corresponding figure for females is 77.6. Ahmedabad UA (Districts 06 and 07) which

comprises Chandkheda (M) and Motera (CT) shows the highest literacy rate of 88.7 per cent. The lowest literacy rate of 70.2 is recorded for Chhatral INA (INA). Sex wise literacy rate comparison among UA/towns shows that the highest rates for both males and females are reported in Ahmedabad UA (districts 06 and 07) and these are 94.4 and 82.4 respectively.

TABLE 25

ANALYTICAL NOTE

Table 25 gives the detail about number and percentage of literate and illiterate for Scheduled Castes at taluka level in the rural areas of the district. 81.2 per cent of the total Scheduled Castes population, excluding the population of age group of 0-6 years is literate in the district having 90.3 per cent literacy among males and 71.4 per cent literacy among females. Thus it can be seen that there is a gapage of

18.9 percentage points between literacy rates of males and females in the district. Gandhinagar taluka has the highest literacy rate of 84 per cent while the lowest literacy rate of 77.4 per cent is recorded in Dehgam taluka. The variations of literacy rates between males and females are between 17.2 to 21.8 percentage points as registered for the talukas in the district.

Literacy rate for District (Rural) : 81.2

Table 26 reveals the distribution of villages in 12 different ranges of literacy rate for the population of Scheduled Castes in rural areas of the district. There is no literates in one village out of 249 villages having the Scheduled Castes population. Maximum number of 102 villages having the maximum proportion of 51.4 per cent population of Scheduled Castes are

registered in the literacy rate range of 81-90. 10 villages having 0.5 per cent of the Scheduled Castes population are registered for having the cent per cent literacy rate. More than 90 per cent but less than 100 per cent literacy rate among Scheduled Castes population is netted in 17 villages having the 7.6 per cent of Scheduled Castes.

* Town having outgrowth.

Table 27 gives the details about absolute number and percentages of literates and illiterates for Scheduled Castes in urban areas of the district. As high as 89.6 per cent of the total Scheduled Castes population excluding the population of age group of 0-6 years is literate in the district. The corresponding proportion of male and female literates comes to 95.3

and 83.3 per cent respectively which shows the gap of 12 percentage points in male-female literacy rate. Chandkheda (M) has the highest urban literacy rate of 93.7 per cent and Chhatral INA (INA) has the lowest rate of 69.9 per cent. The highest rates for male and female are 97.8 and 89.3 respectively and coincidentally both are registered in Chandkheda (M).

TABLE 28
NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TALUKAS/C. D. BLOCKS, 2001

Sl. No.	Name of Taluka/ C.D.block	Number of Literates and Illiterates						Percentage of Literates			Gap in Male-Female Literacy Rate
		Number of Literates			Number of Illiterates			Persons	Males	Females	
		Persons	Males	Females	Persons	Males	Females

District (Rural) Total:		2,030	1,303	727	2,666	1,225	1,441	52.7	62.8	41	21.8

Table 28 gives number and percentage of Scheduled Tribes literates and illiterates by sex at taluka level in the rural district. There are 52.7 per cent literates among Scheduled Tribes population excluding the age group of 0-6 years in the district. The corresponding proportion of male and female literates comes to 62.8 and 41 per cent respectively showing a gap of 21.8 percentage points in male and

female literacy rates. Among the talukas of the district, Dehgam taluka has the highest literacy rate of 63.4 per cent among Scheduled Tribes. The highest literacy rates among males (71.9 per cent) and females (53.3 per cent) are registered in Dehgam taluka whereas lowest of 58.4 per cent in males and 33.6 per cent females are in Mansa taluka.

TABLE 29
DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

District Total:	138	100.0	4,696	100.0

Literacy rate for District (Rural) : 52.7

Table 29 gives the distribution of villages by 12 different literacy rate ranges for Scheduled Tribes population in the rural areas of the district. There are no literates in 8 villages (5.8 per cent) of the district and number of persons of these villages is only 45 (1 per cent). As many as 19 villages accounting for 10.4 per cent of Scheduled Tribes population are registered

in the literacy rate range of 71-80 per cent, followed by 16 villages in each of the ranges of 31-40, 41-50 and 61-70. Maximum proportion of Scheduled Tribes (22.3 per cent) are having the literacy rate range of 41-50. Maximum number of 24 villages accounting for 4.6 per cent of Scheduled Tribes population are having cent per cent literates.

TABLE 30
NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

9	Motera (CT)	64	47	17	102	42	60	47.4	65.3	27	38.3
District (Urban) Total:		8,595	5,162	3,433	4,390	1,885	2,505	77.9	85.5	68.7	16.8

Table 30 gives the details about number and percentage of Scheduled Tribes literate, illiterates and the literacy rates in towns of the district. About 77.9 per cent of the total urban population excluding the age group of 0-6 years is literate in the district. The corresponding proportion for male and female literates are 85.5 and 68.7 per cent respectively showing a gap of 16.8 percentage points in male and female literacy. Chandkheda (M) has the highest literacy rate of 92.8 per cent among Scheduled Tribes as well

as among males (97.9 per cent) and females (87.0 per cent) in Scheduled Tribes population showing a gap of 10.9 percentage points. It is notable that female literacy rate is comparatively higher than that of males in Mansa (M). Maximum gap of 36.2 percentage points in male and female literacy rates may be seen in Adalaj (CT). The lowest literacy rate (25.9 per cent) of females among Scheduled Tribes population has been observed in Dehgam (M).

Table 31 shows absolute number and percentage of main workers, marginal workers and non workers by sex at taluka level in the district as per 2001 Census. The table reveals that only 41.5 per cent in the total population are workers in the district. In total population 35 per cent are main workers while 6.5 per cent are marginal workers. Percentage of non-workers in the district is accounted for 58.5 per cent

of the total population. Among the main workers, male workers are 49.3 per cent while corresponding figure for females is 19.4 per cent. So far as marginal workers are concerned the participation rate of females is 9.5 percent which is higher as compared to males' participation rate which is accounted for only 3.8 per cent.

TABLE 32

ANALYTICAL NOTE

Table 32 gives talukawise absolute number and percentage of main workers, marginal workers and non workers for rural population of the district. As much as 38.2 per cent of the population are main workers whereas the marginal workers constitute only 9 per cent. The percentage of non worker population is 52.8. Sex-wise break up shows that participation rates of male and female in main work are 50.4 and 25.1 per cent respectively. Marginal workers for male

and female are accounted for 4.8 and 13.5 per cent respectively. The percentage of marginal workers in females is higher than that of males. Similar trend have also been observed at taluka level. The percentage of total rural workers of the district comes to 47.2 per cent. At the taluka level, Mansa has the highest proportion of 49.1 per cent of total workers in the total population whereas the lowest of 45.9 per cent workers is recorded in Gandhinagar taluka.

Note : UA = Urban Agglomeration.

Ahmadabad U.A. is spread over in three talukas and two districts, Ahmadabad City and Daskroi talukas come from Ahmadabad district and Gandhinagar taluka comes from Gandhinagar district.

Table 33 shows the absolute number with percentage of main workers, marginal workers and non-workers for urban population at UA/Town level in the district. Of the total 467,260 urban population in the district, 29.1 per cent are categorized as main workers whereas the marginal workers are only 1.9

per cent. Remaining 69 per cent of the population is reported as non-workers. Sex-wise break up at the district shows that 47.3 per cent males and 8.6 per cent females are main workers. Male and female Marginal workers are accounted for 1.9 and 1.8 per cent respectively.

Note: Percentage of Worker to total worker are given in brackets

Table 34 reveals the distribution of workers by sex in four categories of economic activity in the district. From the table it is seen that total workers (main and marginal workers) are 41.5 per cent of the total population. As much as 18.6 per cent of total workers are engaged in cultivation, 21.6 per cent in agricultural labourers, 1.3 per cent in household industry and 58.5 in other work. The proportion of cultivators within talukas varies between 12.1 per cent to 27.2 per cent. The female cultivators are 6.8 per

cent which is lower than the female agriculture labourers of 28 per cent. The percentages of household industry workers are comparatively very low in the district. In household industry proportion of female workers is little more than male workers. As far as other work is concerned maximum workers of 58.5 per cent are engaged in other work as compared to other economic activities. It may also be seen that maximum of male workers (55.9 per cent) and female workers (63.7 per cent) are engaged in other work in comparison to other economic activities.

4	Dehgam	Persons	212171	101,187 (47.7)	30,438 (30.1)	28,852 (28.5)	1,326 (1.3)	40,571 (40.1)
		Males	109475	60,194 (55.0)	27,145 (45.1)	16,951 (28.2)	578 (1.0)	15,520 (25.8)
		Females	102696	40,993 (39.9)	3,293 (8.0)	11,901 (29.0)	748 (1.8)	25,051 (61.1)
District (Rural) Total:	Persons	867195	409,703 (47.2)	99,952 (24.4)	114,576 (28.0)	5,092 (1.2)	190,083 (46.4)	
	Males	450470	248,721 (55.2)	87,889 (35.3)	65,146 (26.2)	3,059 (1.2)	92,627 (37.2)	
	Females	416725	160,982 (38.6)	12,063 (7.5)	49,430 (30.7)	2,033 (1.3)	97,456 (60.5)	

Note : Percentage of Worker to total worker are given in brackets

Table 35 gives talukawise distribution of workers by sex in four categories of economic activity in rural areas of the district. The table reveals that total workers are 47.2 per cent of total rural population. Among workers, share of cultivators is 24.4 per cent. Agricultural labourers contribute 28 per cent. The household industry workers' contribution is of 1.2 per cent and other workers' is of 46.4 per cent, in the rural areas of the district. Agricultural sector plays a major role in providing employment to the working force for the rural population. The percentage of workers in household industries is remarkably low in

rural areas as reflected from the data. Thus, working force has to depend on agriculture sector in rural areas. Percentage of male workers in cultivation is higher than that of female, which is reverse in case of agriculture labourers. A considerable difference between the percentage of cultivators and category of other workers for all the talukas (particularly Gandhinagar taluka) in the district can be seen from the table. It may be observed that contribution of workers in other works is significantly higher as compared to other economic activities in all talukas of the district.

Note : UA = Urban Agglomeration.

Ahmadabad U.A. is spread over in three talukas and two districts, Ahmadabad City and Daskroi talukas come from Ahmadabad district and Gandhinagar taluka comes from Gandhinagar district.

Table 36 gives the distribution of workers by sex in four categories of economic activities in urban areas of the district. In urban total workers (total of Main and Marginal workers) constitute 31 per cent of the population. Of these workers, cultivators constitutes 2.0 per cent, agricultural labourers 3.8 per cent, household industry workers 1.5 per cent and the rest 92.8 per cent other workers. The other work which

is commercially viable, plays a major role in providing employment to the working force in urban areas. Female Participation in cultivation is 1.7 per cent while the same for Agricultural labourers is 8.6. In household industry the participation rate of male is lower than female participants, however it is reverse in case of other workers.

TABLE 37

**DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY
OF DIFFERENT AMENITIES, 2001**

Sl. No.	Name of Taluka/ C. D. block	Number of Inhabited Villages	Type of Amenity Available

2	Mansa	50 (100)	50 (100.0)	49 (98.0)	50 (100.0)	39 (78.0)	50 (100.0)	50 (100.0)	14 (28.0)	49 (98.0)	50 (100.0)	50 (100.0)
3	Gandhinagar	74 (100)	73 (98.6)	72 (97.3)	74 (100.0)	63 (85.1)	70 (94.6)	73 (98.6)	25 (33.8)	51 (68.9)	73 (98.6)	74 (100.0)
4	Dehgam	98 (100)	98 (100.0)	72 (73.5)	98 (100.0)	63 (64.3)	68 (69.4)	94 (95.9)	9 (9.2)	59 (60.2)	94 (95.9)	98 (100.0)
District Total:		291 (100)	290 (99.7)	244 (83.8)	291 (100.0)	214 (73.5)	252 (86.6)	286 (98.3)	65 (22.3)	186 (63.9)	283 (97.3)	291 (100.0)

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office

† Transport communication includes bus service, rail facility and navigable waterways.

Table 37 shows talukawise distribution of villages according to the availability of different amenities such as education, medical, improved drinking water, post office, telephone, transport communication, banks, agricultural credit societies, approach to village by pucca road and power supply. Out of 291 inhabited villages in the district, 290 (99.7 per cent) villages are having at least some educational facility in the village. Medical facility of one kind or other are available in 244 (83.8 per cent) villages of the total inhabited villages. All the 291 villages of the district avail the drinking water facility. As many as 214 (73.5 per cent) villages are equipped with the facilities of post and telegraph. Telephone facility has reached to 252 villages, i.e. 86.6 per cent villages enjoy the facility of Phone. Out of 291 villages, 286 villages are having the transport facility. Out of 291 villages as many as 186 villages have Agricultural Credit Societies. Only 65 villages have banking facility, 283

are linked by pucca roads. So far as power supply is concerned, 100 per cent villages are equipped with power supply in the district.

Considering talukawise availability of these amenities, it can be seen that except one village in Gandhinagar taluka all the villages of all the talukas have educational facility available. So far as Medical facility is concerned, about 97 to 98 per cent villages in Mansa and Gandhinagar talukas avail this facility. In Kalol and Dehgam talukas also 73.5 per cent villages are enjoying it. Facilities of Improved drinking water and electricity is available in all the villages. Except banking and agricultural credit societies the remaining facilities are available in more than 70 to 95 per cent villages in each taluka of the district.

TABLE 38
NUMBER AND PERCENTAGE OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Sl No.	Name of Taluka/ C. D. block	Total Population of Inhabited Villages	Type of Amenity Available

4	Dehgam	212.171 (100)	212.171 (100.0)	183.180 (86.3)	212,171 (100.0)	177,912 (83.9)	183,731 (86.6)	202,711 (95.5)	51,788 (24.4)	159,372 (75.1)	201,984 (95.2)	212,171 (100.0)
District Total:		867,195 (100)	867,118 (99.9)	815,541 (94.0)	867,195 (100.0)	773,116 (89.2)	828,225 (95.5)	857,658 (98.9)	392,234 (45.2)	659,401 (76.0)	853,854 (98.5)	867,195 (100.0)

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly

Post office includes Post office, telegraph office and Post and telegraph office

S Transport communication includes bus service, rail facility and navigable waterways

Table 38 gives the information regarding number and percentage of rural population served by different amenities. Out of total rural population of 867,195 persons in the district 867,118 persons have educational facility of one or other type. Cent per cent populations have facilities of improved drinking water and electricity. As many as 98.9 per cent populations have the facility of transport and

communication and 98.5 per cent enjoy the facility of a pucca road. About 95.5 per cent population have the facility of telephone. Post office facility is available to 89.2 per cent population. The banking facility is available to only 45.2 per cent population. As much as 76 per cent population avail the facility of Agricultural credit societies.

TABLE 39
DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the Amenity of	Distance Range of Place from the Villages where the Amenity is Available			
	Less than 5 Kilometres	5-10 Kilometres	10+ Kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	1	0	0	1
(b) Middle School*	0	0	0	0
(c) Degree College	31	86	169	286
2. Medical:-				
(a) Hospital	38	70	159	267
(b) PHC	93	117	58	268
3. Post Office	57	17	3	77
4. Telephone	20	13	6	39
5. Bus Service	3	2	0	5
6. Banks				
(a) Commercial Bank	90	105	49	244
(b) Co-operative Bank	75	87	89	251
7. Agricultural Credit Societies	44	36	25	105

Note : * In Gujarat State the levels of education are classified as under

(i) Primary School (From Std. I to VII passed)

(ii) Secondary/Matriculation (From Std. VIII to X passed)

(iii) Higher Secondary (From Std. XI to XII passed). Hence details under 1(b) are not shown.

Table 39 shows that only 1 village of the district is having the facilities of basic primary education within a radius of 5 km, students of 169 villages have to travel 10 kms. or more to take their degree education. To avail the facility of hospital, people of 159 villages have to go to 10 kms. or more. But to

get the advantage of PHCs, the villagers of 58 villages have to travel 10 kms. or more. Other than these two important facilities more than 50 per cent villages have other facilities like post office, telephone, banks available within the radius of maximum 10 kms.

TABLE 40

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance Range from the Nearest Statutory Town (in Kilometres)	Number of Inhabited Villages in each Range	Type of Amenities Available							
		Education	Medical	Post Office #	Telephone	Transport Communications \$	Banks	Agricultural Credit Societies	Approach by Pucca Road
1	2	3	4	5	6	7	8	9	10
less than 5	19 (100.0)	18 (94.7)	16 (84.2)	13 (68.4)	17 (89.5)	18 (94.7)	2 (10.5)	13 (68.4)	19 (100.0)
5 -15	191 (100.0)	191 (100.0)	174 (91.1)	153 (80.1)	179 (93.7)	190 (99.5)	51 (26.7)	130 (68.1)	184 (96.3)
16 - 50	81 (100.0)	81 (100.0)	54 (66.7)	48 (59.3)	56 (69.1)	78 (96.3)	12 (14.8)	43 (53.1)	80 (98.8)
51+	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)
Unspecified	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)
District Total	291 (100.0)	290 (99.7)	244 (83.8)	214 (73.5)	252 (86.6)	286 (98.3)	65 (22.3)	186 (63.9)	283 (97.3)

Note: # Post office includes Post office, Telegraph office and Post and telegraph office.

\$ Transport communication includes bus service, rail facility and navigable waterways.

Percentages are given in brackets.

Table 40 shows number of villages distributed according to four ranges of the distance from the nearest statutory town along with number of villages and availability of different amenities. Out of 291 inhabited villages, only 19 villages are in the range of 5 kms. from the nearest statutory town. Out of these 19 villages, except bank, agricultural credit societies and post office facility, 16 to 19 villages have amenities like education, medical, telephone, transportation communication etc. 191 villages are having nearest statutory town within a distance of 5-15 kms. Of these 191 villages more than 90 per cent

villages are having all amenities except bank and agricultural credit societies. Remaining 81 villages have their statutory town within a range of 16-50 kms. All these 81 villages avail the facilities of education. It is clear from the table that 89.5 per cent villages in the distance range of less than 5 kms. 73.3 per cent villages in the distance range of 5-15 Kms. and 85.2 per cent villages in the distance of 16-50 are deprived of Banking facilities. No village in the distance range of 51 or more from statutory town is registered in the district.

TABLE 41

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Population Range	Number of Inhabited Villages in each Range	Type of Amenities Available									
		Education	Medical	Improved Drinking Water *	Post Office #	Telephone	Transport Communications\$	Banks	Agricultural Credit Societies	Approach by Pucca Road	Power Supply

Note: # Post office includes Post office, Telegraph office and Post and telegraph office.

\$Transport communication includes bus service, rail facility and navigable waterways.

*Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Percentage are given in brackets.

Table 41 reveals the distribution of villages according to different population ranges and amenities available. Villages having population equal to and above 10,000 have all the facilities. Out of 44 villages falling in the population range of 5,000 -9,999 the facilities of banks and agricultural credit societies are available in 36 and 33 villages respectively. Facilities of medical, transport communication and pucca approach road are available in 43 villages. Remaining

other amenities like education, medical etc. are available to all the villages. 18 villages are registered in the population range of 1-499. No banking facilities are available there though educational facilities are available to 17 villages. Villages having the population ranges of 500-999, 1,000-1,999 and 2,000-4,999 are enjoying the amenities of education and power supply.

TABLE 42

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Taluka/ C. D. Block	Number of Inhabited Villages	Total Area (in Hectares)	Percentage of Cultivable Area to Total Area	Percentage of Irrigated Area to Total Cultivable Area
1	2	3	4	5	6
1	Kalol	69	44,935.4	86.5	81.2
2	Mansa	50	35,087.0	83.5	98
3	Gandhinagar	74	59,121.5	80.9	60.5
4	Dehgam	98	59,226.6	80.2	46.9
District Total:		291	198,370.4	82.4	68.2

Note : Cultivable area = irrigated area + unirrigated area

Table 42 gives talukawise information of total area, cultivable area and irrigated area in the district. Cultivable area includes irrigated as well as unirrigated area. There are 291 inhabited villages in the district having a total area of 198,370.4 hectares. Of this 82.4 per cent is cultivable and of this total

cultivable area 68.2 per cent area is an irrigated area. Looking to the land use pattern at taluka level, it shows that Kalol taluka has maximum land (86.5 per cent) available for cultivation. Mansa taluka is having 98 per cent irrigated area of the land available for cultivation which is the highest in percentage terms.

* Town having outgrowth.

Table 43 shows per capita receipt and expenditure in statutory towns of the district. Receipt includes income from taxes and other sources. Expenditure is a total of expenditures incurred on General Administration, Public Health and Conveniences, Public works, Public Institutions and Others. The per capita receipt in district is Rs. 3,029.5 from which the receipt from Taxes is Rs.137.7 and from other

sources is Rs.2891.8 The per capita expenditure in district is Rs. 3,506.1. The major portion of expenditure falls under 'General Administration' The expenditure on health is only Rs. 82 i.e. less than 3 per cent in all the towns in the district. The expenditure is more than the receipt in Gandhinagar (NAC).

TABLE 44
SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and Urban Status of Town	Type of Educational Institution				
		Primary	Junior Secondary/ Middle	Secondary/ Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Chandkheda (M)	2.2	0	1.6	1.6	0
2	Chhatral (INA)	0	0	0	0	0
3	Dehgam (M)	4.5	0	1.8	1.8	0.3
4	Gandhinagar (NAC)	4.1	0	1.2	0.5	0.5
5	Kalol (M)*	3.8	0	0.9	0.4	0.2

7	Mansa (M)	5	0	1.4	1.4	1.4
District Total :		3.9	0	1.3	0.8	0.3

Note : In Gujarat State, the levels of education are classified as under

- (i) Primary School (From Std. I to VII passed)
- (ii) Secondary/Matriculation (From Std. VIII to X passed)
- (iii) Higher Secondary (From Std. XI to XII passed). Hence, details under Col.4 are not shown

* Town having outgrowth.

ANALYTICAL NOTE

Table 44 shows the availability of schools/colleges per 10,000 populations in statutory towns. The data reveals that in urban areas of the district, the average number of primary schools per 10,000 populations is 3.9. In case of secondary/matriculation, numbers of available institutes are 1.3 (less than

primary). Average numbers of available institutes for Senior Secondary are only 0.8 and colleges are only 0.3. Townwise comparison shows that number of institutes per 10,000 population for primary to senior secondary education are the highest in Dehgam (M).

TABLE 45
NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and Urban Status of the Town	Number of Beds in Medical Institutions per 10,000 Population
1	2	3
1	Adalaj(CT)	0
2	Chandkheda(M)	5
3	Chhatral(INA)	0
4	Chiloda(CT)	0
5	Dehgam (M)	46
6	Gandhinagar(NAC)	19
7	Kalol(M)*	39
8	Kalol INA(INA)	0
9	Mansa(M)	24
10	Motera(CT)	5
	District Total :	23

Note : * Town having outgrowth.

Table 45 gives number of beds in medical institutions per 10,000 populations in each town of the district. On an average there are 23 beds per 10,000 populations in urban areas of the district. This facility is available only in 6 towns of the district.

Among these towns, Dehgam has the highest number of 46 beds. Next to Dehgam is Kalol where 39 beds are available and the lastly Gandhinagar and Mansa(M) has 19 & 24 beds respectively per 10,000 population.

TABLE 46
PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town	Total Population	Slum Population	Percentage of Slum Population to Total Population
1	2	3	4	5
1	Chandkheda	55,504	2,500	4.5
2	Dehgam	38,082	20,065	52.7
3	Gandhinagar	195,985	12,403	6.3
4	Kalol	112,013	31,636	28.2
	District Total	401,584	66,604	16.6

Table 46 gives the information regarding proportion of slum population in towns of the district. It reveals that only 4 towns in the district have slum population. The maximum slum population of 52.7

per cent of the total population is reported in Dehgam. Followed by it is Kalol, 28.2 per cent. These proportions are 6.3 and 4.5 per cent in Gandhinagar and Chandkheda respectively.

TABLE 47

MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

		Wheat	Wheat
		Cotton	Cotton
10	Motera (CT)	Ice	Ice
		Iron Pipes	Iron Pipes
		Vegetables	Vegetables

Note: * Town having outgrowth.

Table 47 shows the most important commodities manufactured and exported out of the each town in the district. In the district two towns, Chhatral and Kalol are Industrial Notified Areas (INA). At Chhatral medicines, electrical equipments and agricultural equipments are manufactured and exported. Fertilizers, sintex tanks and other plastic goods and electrical equipments are produced at Kalol. The

sintex tank is famous for water tank and has become the trade name. The items produced here are exported. At other towns of the district important items manufactured/produced are televisions, cement pipes spare parts for telecommunication articles, process control instrument and detergent powder. These items are also exported from the district.

Source : Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Table 48 gives very valuable information regarding number of households by tenure status and number of rooms occupied in the district. The total number of households in the district is 261,062. Out of these 170,993 households are living in rural area and 90,069 in urban area. Out of total households, number of households belonging to Scheduled Castes and Scheduled Tribes are 25,215 and 5,130 respectively.

Considering tenureship of the dwellings which they have occupied, it is observed that out of the total households of the district 81.6 per cent households are living in their own houses, 15.1 per cent living in

rented houses and rest 3.3 per cent households are living in other houses.

Of these households, households living in one room and living in two rooms are 38.1 and 38.4 per cent respectively. 16.6 per cent of the households live in three rooms and more than three rooms are occupied by 5.9 per cent.

In case of scheduled castes and scheduled tribes households living in own house are 72.7 and 49.2 per cent of total households of scheduled castes and scheduled tribes respectively.

TABLE 49

PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Sl. No.	District/ Taluka	Total			Rural			Urban		
		Permanent	Semi permanent	Temp-orary	Permanent	Semi permanent	Temp-orary	Permanent	Semi permanent	Temp-orary
1	2	3	4	5	6	7	8	9	10	11
1	Kalol	45,020 (74.1)	13,142 (21.6)	2,603 (4.3)	25,462 (65.3)	11,220 (28.8)	2,320 (6.0)	19,558 (89.9)	1,922 (8.8)	283 (1.3)
2	Mansa	29,497 (71.7)	9,881 (24.0)	1,790 (4.4)	25,110 (70.5)	8,893 (25.0)	1,596 (4.5)	4,387 (78.8)	988 (17.7)	194 (3.5)
3	Gandhinagar	86,210 (78.2)	20,016 (18.2)	4,023 (3.7)	35,785 (65.3)	15,913 (29.0)	3,139 (5.7)	50,425 (91.0)	4,103 (7.4)	884 (1.6)
4	Dehgam	24,341 (49.8)	20,594 (42.1)	3,937 (8.1)	18,530 (44.6)	19,173 (46.2)	3,844 (9.3)	5,811 (79.3)	1,421 (19.4)	93 (1.3)
	District Total	185,068 (70.9)	63,633 (24.4)	12,353 (4.7)	104,887 (61.3)	55,199 (32.3)	10,899 (6.4)	80,181 (89.0)	8,434 (9.4)	1,454 (1.6)

Source : Census of India 2001, H - series : "Tables on Houses, Household amenities and Assets."

Note : Permanent : Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e., where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concrete are used for roof.

Semi permanent : Semi-permanent houses refer to those houses made of other types of materials

Temporary : Temporary houses refers to those houses having wall and roofs made of Kachcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

Table 49 gives percentage distribution of households living in permanent, semi-permanent and temporary houses in the district. As high as 70.9 per cent of households in the district are living in houses made of pucca materials, 24.4 per cent of households are living in semi-permanent houses and only 4.7 per

cent houses are made of temporary materials. Percentages of households of rural and urban area living in houses of permanent nature are 61.3 and 89.0 respectively. It is obvious that percentage of households living in temporary houses in rural area will be more than urban areas.

Source : Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

Note : * Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

@ Bathroom means bathroom within the house

\$ Toilet means toilet within the house

Drainage means closed and open drainage

Percentages are given in brackets.

Table 50 shows number and percentage of households having facilities of Improved Drinking Water, Electricity, Bathroom, Toilet and Drainage to the households of the district. The table reveals that 97 per cent households in the district have been provided with drinking water supplied either from a tap or a hand pump/tube-well, 80.7 per cent households have the provision of electricity in their houses. The bathroom facility is available to only 52.9 per cent households within their premises. The toilet and drainage facilities are available to 47.7 and 39.2 per cent households respectively.

Considering rural and urban area wise availability of these facilities, facilities of bathroom, toilet and

drainage in the premises in rural area is remarkably lower than the urban area. In urban area 77.2 percent or more households have these facilities. It is of interest to see that in rural area about 96.2 per cent households have access of improved drinking water.

Among talukas, in Dehgam taluka 92.7 percent households have improved drinking water facility, which is the lowest one, in other three talukas more than 95 per cent households have this facility. So far as electricity is concerned, in Kalol taluka 85.5 per cent households avail this facility which is the highest among talukas.

		Urban	90,069	15,699 (17.4)	1,300 (1.4)	416 (0.5)	1 (0.0)	82 (0.1)	63,115 (70.1)	388 (0.4)	8,664 (9.6)	6 (0.0)	398 (0.4)

Note : Percentages are given in brackets.

Table 51 gives the percentage distribution of households by type of fuel used for cooking purposes. There are nine type of fuel used for which data is presented in this table. It is observed that firewood is the dominating fuel used for cooking and it is used by 44.3 per cent of households. 35.1 per cent use cooking gas, kerosene is used by 8.2 per cent and crop residue by 10.4 per cent. The remaining type of fuels is used only by about 0.1 per cent. In rural areas

of the district, firewood and crop residues are the two main fuels used, which together constitute 73.6 per cent. Kerosene is used by 7.4 per cent. In urban area cooking gas is the prime fuel used. About 70.1 per cent households use cooking gas. Next to gas is firewood (17.4 per cent) and then comes kerosene (9.6 per cent). At taluka level also more or less the same pattern is observed.

TABLE 52

NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Sl. No.	Name of Taluka	Total/Rural/Urban	Total Number of Households	Total Number of Households Availing Banking Services	Availability of Household Assets						
					Radio/Transistor	Television	Telephone	Bicycle	Scooter/Motor Cycle/Moped	Car/Jeep/Van	None of the Specified Assets

Source: Census of India 2001, H- series: "Tables on Houses, Household Amenities and Assets."

Table 52 gives number of households availing banking services and number of households having possession of assets such as radio/transistor, telephone, bicycle, scooter and car etc. There are 261,062 households in the district. Out of these households, 42.9 per cent households are availing banking services. 47.6 per cent have television. Next to it is bicycle (38.5 per cent). Two wheeler i.e. either scooter or motor cycle or moped is possessed by 22.3

per cent. Radio/transistor is possessed by 27.9 per cent households. Telephone is available in only 14.8 per cent households. Car/jeep/van is used by only 3.5 per cent. Also 37.1 per cent households are not having any of the specified items. It has been observed that maximum households (48.6 per cent) in rural areas are reported to be deprived of these specified assets as compared to urban households of 15.4 per cent.

(viii) Major social & cultural events natural & administrative developments and significant activities during decade.

The Government of Gujarat had reconstituted Gandhinagar district by including Kalol and Mansa Talukas from Mahesana District vide Government Notification No.GHM-97-120-M-PFR-2097-2594-L dated 15th October, 1997 and GHM-97-170-M-PFR-3097-2878-L dated 31st December, 1997. Dehgam Taluka of Ahmadabad district was included in Gandhinagar district vide Notification No.GHM-97-86-M-PFR-1097-L dated 24th September, 1997. Thus reconstituted Gandhinagar district has four Talukas namely (1) Kalol (2) Mansa (3) Gandhinagar (4) Dehgam.

(ix) Brief description of places of religious historical or archaeological importance in villages and places of tourist interest in the town of the district:

Gandhinagar, the newly created capital of Gujarat State, shifted in 1970, is situated on Sabarmati river about 30 km from the former capital, Ahmadabad. The township was named Gandhinagar in commemoration of Mahatma Gandhi, the Father of the Nation. Beautifully designed capital complex is an unique specimen of architecture. Capital Complex i.e. State Assembly building and Sachivalaya are worth visiting. Some places like Akshardham (Swaminarayan Temple), Sarita Udyan, Children's Park and Indroda Park (Deer Park) etc. are the attraction of the city for picnic spot. There are two famous Institutions, viz. (1) Infocity and (2) Dhirubhai Ambani Institute of Information Technology for imparting technical education.

Name of Taluka : Kalol
Name of Place : Pansar
Location Code : 00473500

There is a Jain temple of Mahavir Swami and idol of the temple is believed to be very ancient. A large Dharamshala attached to the temple has 180 rooms to accommodate pilgrims.

Name of Taluka : Kalol
Name of Place : Sherisa
Location Code : 00475000

The village has a big Jain Temple, dedicated to Shri Parasnath, the 23rd Tirthankar.

Name of Taluka : Mansa
Name of Place : Mansa
Location Code : 40604000

There is an ancient step-well believed to have been constructed in 1526 A.D. and an old Malav tank built by the people. The step well is a historic relic and is declared as a protected monument. There are several temples including a 100-year-old temple of Shri Swaminarayan and a Jain temple.

Name of Taluka : Gandhinagar
Name of Place : Gandhinagar
Location Code : 40605000

(Akshardham)

Akshardham is the famous temple of "Swaminarayan Sect" which is one of the richest sects in the world. It is an unique cultural complex built in Gandhinagar in memory of Lord Swaminarayan. Inspired by H.D. Pramukh Swami Maharaj, Akshardham is a miracle worked by the service and devotion of thousands of volunteers. Akshardham is a modern complex built in traditional Indian architectural style.

The first floor galleries house a museum portraying the 500 'parahansas' and the several things belonging to Swaminarayan such as his letter addressed to Guru Ramanand, a piece from an old tree from Chhapiya, his pure wool shawl, a replica of his old home and other displays. The galleries outside have a three exhibitions on Indian culture with light and sound shows, a multimedia show and an animatronic show of the life of Swaminarayan and from Hindu epics to introduce visitors to the concept of the Akshardham Movement, founded in 1907 A.D. to promote the preachings of Swaminarayan. Other attractions of Akshardham are games, rides and food refreshments.

Name of Taluka : Gandhinagar

Name of Place : Motera

Location Code : 40608000

Motera is 10 km away from Ahmadabad city. It is known for the Sadashiv Ashram. Regular discourses on Vedanta and Gayatri recitations are conducted at the Ashram which is visited by many people. There is a large "Gayatri Upasana Khand" specially designed for the purpose. There is another Ashram known as Motera Ashram of Sant Shri Asharamji. The Ashram is visited by the followers of all religions. The temple of Shiv, Brahmani Mata and Swaminarayan are famous. Also a big Cricket Stadium is built up here where International cricket matches are being organized.

Name of Taluka : Gandhinagar

Name of Place : Adalaj

Location Code : 40606000

(Step well of Adalaj)

The village is located at a distance of 15 km. from Gandhinagar. It is famous for its ancient stepwell popularly known as "Adalaj ni Vav". It was built in 1499 A.D. by Ruda Rani, daughter of Raja Venu and wife of Raja Virsing, a Vaghela Rajput. It was built here to commemorate the name of her father. This stepwell is a unique example of architecture with a huge and artistic edifice. The entire structure is underground and has storeys laid one upon another and a number of chambers one behind another.

Name of Taluka : Gandhinagar

Name of Place : Rupal

Location Code : 00482800

(Temple of Goddess Varadayani)

The village is situated 15 km. north of Gandhinagar. It is famous for the ancient temple of Vardayini Mata where a large fair is held during the Navratri festival. The festival is known as 'Rupal ni Palli'. Palli festival is celebrated on ninth day of Navratri in the temple of goddess Vardayini (the one who fulfills wishes). This is the worship of five 'Bali' participated by the folk of all communities. The ceremony in this festival is quite unique as it illustrates communal harmony, religious unit and non-existence of untouchability.

Name of Taluka : Gandhinagar

Name of Place : Sadra

Location Code : 00483300

The village was founded by Sultan Ahmadshah and was called Shahdara, which later become Sadara. The Jakshini Mata temple situated on the bank of the river Sabarmati. It is the family deity (*Kuldevi*) of *Banias*. A fair is held here on the second Sunday of the month of Bhadrapad. The temple also serves as a picnic spot.

Name of Taluka : Gandhinagar

Name of Place : Koba

Location Code : 00488200

Koba is about 10 km. from Gandhinagar. It is famous for the Kasturba Ashram, managed by the Kasturba Smarak Trust which conducts a primary teachers training college for women. The trust organizes a fair known as Kasturba Gandhi Fair on Shivratri to commemorate the death anniversary of Kasturba Gandhi, which falls on this day. Shri Mahaveer Jain Aradhana Kendra, a novel religious center is situated in the natural environment at Koba village of Gandhinagar district. This meditation, spiritual and educational center is only 10 km away from Ahmadabad city and is spread over 80,000 sq. yards, surrounded by greenish panoramic view. This Kendra is dedicated to develop three gems of Jainism namely The Right Faith, The Right Knowledge and The Right Conduct. This Kendra has been established with the name of Acharya Shri Kailas Sagar Suriiji Maharaj in his commemoration. It is a unique research center for higher studies in Ideology in general and Jainism in particular, preserving the cultural heritage and spreading the message of Lord Mahavir to the common people. Gyan Mandir the nerve center of

the Kendra houses a vast library which is one of the first of its kind in India. It has about 150,000 old manuscripts and more than 50,000 printed books. The library is meant for any seeker of Truth to come, stay and gain knowledge. The Aradhana Kendra has a Museum and Art Gallery. Mahaviralaya, the grand and gracious temple of Lord Mahavir is a monumental place of Jain Art, Jain Culture and Jain Archaeology. The idols of Lord Mahavir, Lord Adinath and Lord Parshwanath touch the hearts of every visitor. It is interesting to note that Jain saints Ajay Sagarji, Arvind Sagarji and Uday Sagarji calculated arithmetically the motion of the sunrays and accordingly they arranged to fall the sunrays on the forehead of Mahavir Swami's idol at 2.07 p.m. on 22nd May of each year which was the time of Agni Sanskar and the day of death of Acharya Shri Kailas Sagar Suri, respectively.

(X) Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district

The new capital of state is given the name 'Gandhinagar'. The township was named after Mahatma Gandhi, the Father of the nation. The whole town was to be built completely new hence the town planning scheme could be made possible. It was to be made the centre for administration; hence all the arrangements were planned accordingly. The buildings, roads, gardens and other amenities were established keeping its utilities in view. The planning was based on Chandigarh style. The first ever whole new town in post independence era, developed by French architect La Corbusier. A special care has been taken to avoid pollution. There are plenty of trees in the town. The parks of Gandhinagar have become tourist attractions.

Some of the villages around Gandhinagar have been included in the district of Gandhinagar. Adalaj near Gandhinagar is world famous for its step-well. The architecture of the step-well is extraordinary. The multi-storied step-well has many underground rooms and each pillar is a piece of art.

Some more tourist attractions are also there in and around Gandhinagar. The deer Sanctuary and serpent-house in Indroda, a nearby village is one of them. The festival of 'Palli' in Rupal village during

Navratri festival is one more tourist attraction. Vasaniya Mahadev at Vasan village is also worth to see it.

Mahaviralaya, the grand and gracious temple of Lord Mahavir is a monumental place of Jain Art, culture and archaeology. It is interesting to note that Jain saints Ajay Sagarji, Arvind Sagarji and Uday Sagarji calculated arithmetically the motion of the sunrays and accordingly they arranged on the forehead of Mahavir Swami's idol at 2.07 p.m. on 22nd May of every year.

Rupal-palli: symbolic of folk's faith

In the Rupal village of Gandhinagar district, Palli festival is celebrated on ninth day of bright half of *Aaso* month in the temple of Goddess Vardayini (the one who fulfills wishes). This is the worship of five 'Bali' participated by the folk of all communities. The ceremony in this festival is quite unique as it illustrates communal harmony, religious unit and non-existence of untouchability.

On the eighth day of the month, Harijans bring woods of *shami* tree, carpenter prepares a chariot (palli) of this wood. Valand (barber) ties sticks to the chariot. Potter put kunda (clay pot) on it. Vahora put cottonseeds in the pots. Brahmins perform '*Navchandi yagna*'. The principal ceremony in this festival begins at twelve o'clock midnight. Village leader observes *Navratri Vrita* and worships the Goddess. Then palli is taken around the village. Palli lighted with sacred in fire pots (bowl like) are held by devotees. Villagers add ghee to burning fire. Several tins of ghee are used on this festival. People in great numbers come to Rupal from all parts of Gujarat and offer coconuts and flower garlands to the Goddess.

Shri Mohmmad Mankad (1928)

Eminent writer and a major literary figure, Mohmmad Mankad was born in Paliyad. After his school education he joined Bahauddin Science College in Junagadh, but he soon had to give up studies to join a high school in Botad as teacher. His career as a writer had, however, already begun by then, started appearing in '*Phulchhab*' published from Rajkot. '*Kayar*' was the first of Mankad's works of fiction. This was followed by a whole long list of

novels and collections including '*Dhummas*', '*Morpinchha na Rang*', '*Bandh Nagar*' and '*Ashwa Dod*'. These works have received acclaim from a wide readership. In 1979 Mohammad Mankad began writing for the leading daily '*Sandesh*' and column '*Kaleidoscope*' put him in the front rank of the essayists. Mankad has been responsive to the changing scenario in modern day fiction writing and also the current psychological and existential trend.

In 1982, Mankad was chosen as the first President of the 'Gujarati Sahitya Academy. He also worked as member of the Gujarat Public service Commission from 1984 to 1990. He was also member of Gujarat University Senate from 1989 to 1991. He thrice received awards from the Gujarat State. He is also the recipient of K.M. Munshi Medal' and 'Kaka Kalelkar Prize'

Shri Rasiklal Chhotalal Parikh

Shri Rasiklal C. Parikh of Pethapur is a well-known scholar, a research worker and a writer. At present he is working as the honorary post graduate teacher in B.J. Institute of Learning and Research at Ahmadabad for guiding students reading for the M.A. and Ph. D. degrees in Sanskrit and Indian Culture. He is also working as a General Editor of 'Political and Cultural History of Gujarat to be published. The scheme is sponsored by the Government of Gujarat and executed by B. J. Institute and the Gujarat Vidya Sabha. In 1960, he was awarded Sahitya Academy Prize for his Gujarati play 'Sharvilaka'. He has also written plays, poems, and short stories.

Shri Bansidhar Chhaganlal Shukla

Shri Bansidhar Chhaganlal Shukla of Rupal is a writer and a known cartoonist. He is a commercial artist and his cartoons appear in various dailies, weekly newspapers and monthly magazines. 'Harihar' 'Chitragupta' 'Rahu' 'Franc white' etc. are his nick names.

(xi) Scope of Village Directory and Town Directory :

As mentioned earlier, the District Census Handbook is brought out in two parts-Part A and Part B. Part A covers the non-census data of village directory and town directory whereas part B

covers the primary census abstract data of 2001 Census. The scope of village directory and town directory is discussed below.

Scope of Village Directory

For the census work, the villages in the district have been arranged taluka wise and within the taluka they are shown location code wise. Each village is assigned a location code number for the purpose of identification. In 2001 Census, all the villages have been given unique 8-digit code number, which will remain constant across the census, and shall make it easy to do comparative study. Eight digit code's last two digits are especially provided to take into account exigencies arising due to jurisdictional changes of villages by partition, amalgamation etc. This time it has been kept '00'. Prior to the village directory information, a map and alphabetical list of villages for each taluka is given in Part A. Village directory contains the non-census data of each village. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the co-relation of amenities with the number of households and population they serve. If an amenity is not in existence in the referent village, the distance in broad ranges from the nearest place along with name, where the amenity is available is given. The broad range are (-5 km), (5-10 km.) and (10+ km.). Some additional information has been added viz.(1) Number of Banks, (2) Credit Societies, (3) recreational and cultural facilities, (4) Receipt of Newspaper / Magazine, (5) Income & Expenditure of the village and (6) Name of the three most important commodities imported, manufactured/ produced & exported. This time information regarding Market & Hat facility has been deleted.

The village directory also carries the following appendices.

- Appendix-I It gives the taluka wise abstract of educational, medical and other amenities available in the villages of the district.
- Appendix-I-A Indicates number of villages Taluka wise having one or more primary schools.
- Appendix-I-B Indicates number of villages Taluka wise having primary, middle and secondary schools.
- Appendix-I-C Shows number of villages Taluka wise with different sources of drinking water facilities.
- Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
- Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.
- Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.
- Appendix-IV Taluka wise list of inhabited villages where no amenity other than drinking water facility is available.
- Appendix-V Summary showing number of villages not having Scheduled Castes population.
- Appendix-VI Summary showing number of villages not having Scheduled Tribes population.
- Appendix-VII The appendix shows the list of villages
A, VII B according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.
- Appendix-VIII Indicates Taluka wise number of villages under each Gram Panchayat.
- Appendix-IX Shows number of different types of girls school in a village.

Scope of Town Directory

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in town directory is covered in following seven statements, viz. statements I to VII.

- Statement-I Town wise class, name, civic administrative status of the town, its area, growth rates, density and sex ratio.
- Statement-II Physical aspects of each town.
- Statement-III Income and expenditure of each town.
- Statement-IV Civic and other amenities in respect of each town.
- Statement-V Availability of medical, educational, recreational and cultural facilities in each town.
- Statement-VI Trade, commerce, industry and banking activities in each town.
- Statement-VII Civic and other amenities in slum areas of each town.

In all the Statement except VII the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. In addition to the above statements, an appendix showing the towns with their outgrowths with population, is also given after the town directory statements.

PART – A
VILLAGE AND TOWN
DIRECTORY

SECTION - I VILLAGE DIRECTORY

Village Directory

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town, the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Column 1 : Serial Number

Self explanatory. All the villages within the Taluka/CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The areas of the villages in hectares are given. Wherever the area figures were not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz. < 5 km., 5-10 km. and 10+ km of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

- | | |
|-------------------------------|-----|
| (i) Primary School | P |
| (ii) Middle School | M* |
| (iii) Higher Secondary School | S |
| (iv) Senior Secondary School | PUC |
| (v) College | C |

(vi) Industrial School	I
(vii) Training School	Tr
(viii) Adult literacy class/centre	AC
(ix) Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note :-*There is no Middle school in the Gujarat State.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i) Allopathi Hospital	H
Ayurvedic Hospital	HA
Unani Hospital	HU
Homeopathic Hospital	H Hom
(ii) Allopathic Dispensary	D
Ayurvedic Dispensary	DA
Unani Dispensary	DU
Homeopathic Dispensary	D Hom
(iii) Maternity & Child Welfare	MCW
(iv) Maternity Home	MH
(v) Child Welfare Centre	CWC
(vi) Health Centre	HC
(vii) Primary Health Centre	PHC
(viii) Primary Health Sub-Centre	PHS
(ix) Family Welfare Centre	FWC
(x) T.B. Clinic	TB
(xi) Nursing Home	NH
(xii) Registered Private Medical Practitioner	RMP
(xiii) Subsidised Medical Practitioner	SMP
(xiv) Community Health Worker	CHW
(xv) Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i) Tap Water	T
(ii) Well Water	W
(iii) Tank Water	TK
(iv) Tubewell Water	TW
(v) Handpump	HP
(vi) River Water	R
(vii) Canal	C
(viii) Lake	L
(ix) Spring	S
(x) Others	O

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i) Post Office	PO
(ii) Telegraph Office	TO
(iii) Post & Telegraph Office	PTO
(iv) Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, Co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i) Commercial Bank	CM
(ii) Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

- (i) Agricultural Credit Society ACS
- (ii) Non- Agricultural Credit Society NCS
- (iii) Other Credit Society OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

- (i) Cinema / Video Hall CV
- (ii) Sports Club SP
- (iii) Stadium / Auditorium ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

- (i) Bus BS
- (ii) Railway Station RS
- (iii) Navigable Waterway NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

- (i) Paved Road PR
- (ii) Mud Road MR
- (iii) Foot Path FP
- (iv) Navigable River NR
- (v) Navigable Canal NC
- (vi) Navigable Waterways other than River, Canal NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using

following codes :

- (i) Electricity for domestic use ED
- (ii) Electricity for agricultural use EAG
- (iii) Electricity for other purposes EO
- (iv) Electricity for all purposes EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

- (i) News Paper N
- (ii) Magazine M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Cultivable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

- (i) Government Canal GC
- (ii) Private Canal PC
- (iii) Well (without electricity) W
- (iv) Well (with electricity) WE
- (v) Tubewell(without electricity) TW
- (vi) Tubewell(with electricity) TWE
- (vii) Tank TK
- (viii) River R
- (ix) Lake L
- (x) Waterfall WF
- (xi) Others O
- (xii) Total T

The village directory also carries the following appendices.

- Appendix-I It gives the abstract of educational, medical and other amenities available in villages Taluka/C.D. Block wise of the district.
- Appendix-I-A Indicates number of villages Taluka/ C.D. Block wise having one or more primary schools.
- Appendix-I-B Indicates number of villages Taluka/ C.D. Block wise having primary, middle and secondary schools.
- Appendix-I-C Shows number of villages Taluka/ C.D. Block wise with different sources of drinking water facilities.
- Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
- Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.
- Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

- Appendix-IV Taluka/C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.
- Appendix-V Summary showing number of villages not having Scheduled Castes population.
- Appendix-VI Summary showing number of villages not having Scheduled Tribes population.
- Appendix-VII-A, VII-B The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.
- Appendix-VIII Indicates Taluka/C.D. Block wise number of villages under each Gram Panchayat.
- Appendix-IX Shows number of different types of girls school in a village.

Note : * In Gujarat State, the levels of education are classified as under

- (i) Primary (from Std. I to VII passed)
- (ii) Secondary/Matriculation (From Std. VIII to X passed)
- (iii) Higher Secondary (From Std. XI to XII passed). Hence details under column 6 is not shown.

SECTION – II – TOWN DIRECTORY

Town Directory

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)	(XIV) Industrial Township	ITS
Statement I : Status and Growth History	(XV) Township	TS
Column (2) : Class, name and civic administration status of town :	(XVI) Town Panchayat	TP
	(XVII) Nagar Panchayat	NP
	(XVIII) Town Committee/Town Area Committee	TC
	(XIX) Small Town Committee	ST
	(XX) Estate office	EO
	(XXI) Gram Panchayat	GP
	(XXII) Census Town	CT
	Others columns need no comments.	

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one lakh (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I) Municipal Corporation	M. Corp.
(II) Municipal Committee	MC
(III) Municipal Council	M C
(IV) City Municipal Council	CMC
(V) Town Municipal Council	TMC
(VI) Municipal Board	MB
(VII) Municipality	M
(VIII) Cantonment Board/Cantonment	CB
(IX) Notified Area	NA
(X) Notified Town	NT
(XI) Notified Area Committee/ Notified Area Council	NAC
(XII) Notified Town Area	NTA
(XIII) Industrial Notified Area	INA

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8:

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 and 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999**Column (1 to 5) : Self explanatory.****Column (6) : Road length (in kms.)**

Information about kutchra / pucca road is to be recorded separately for the roads within the limits of the referent town.

- | | |
|-------------------|----|
| (i) Pucca Road | PR |
| (ii) Kutchra Road | KR |

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewerage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

- | | |
|--------------------------|-----|
| (i) Sewer | S |
| (ii) Open Surface Drains | OSD |
| (iii) Box Surface Drains | BSD |
| (iv) Syllk Drains | SD |
| (v) Cesspool method | CP |
| (vi) Pit System | Pt |
| (vii) Others | O |

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

- | | |
|---------------|----|
| Head Loads | HL |
| Basket | B |
| Wheel Barrows | WB |
| Septic Tank | ST |
| Pit System | Pt |

Sewerage S

Others O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

- | | |
|----------------------|----|
| (i) Tap water | T |
| (ii) Tube-well water | TW |
| (iii) Tank Water | TK |
| (iv) Well water | W |

Column 14:

- | | |
|----------------------------------|-----|
| (v) Over Head Tank | OHT |
| (vi) Service Reservoir | SR |
| (vii) River Infiltration Gallery | RIG |
| (viii) Bore Well Pumping System | BWP |
| (ix) Pressure Tank | PT |

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999**Column 1 to 3 : Self explanatory.****Column 4 and 5 :**

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies

like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i) Hospital	H
(ii) Dispensary	D
(iii) Health Centre	HC
(iv) Family Welfare Centre	FWC
(v) T.B. Clinic	TB
(vi) Nursing Home	NH
(vii) Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i) Arts only	A
(ii) Science only	S
(iii) Commerce only	C
(iv) Arts & Science only	AS
(v) Arts & Commerce only	AC
(vi) Combined for all categories-Arts, Science and Commerce	ASC
(vii) Law	L
(viii) University	U
(ix) Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

“Recognised” should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i) Vocational Training Institute	VT
(ii) Shorthand	SH
(iii) Typewriting	Type
(iv) Shorthand & Typewriting	SH Type
(v) Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher’s Training Institute, Music / Dance School, Nursing School etc. are covered under ‘Others’.

Column 11 to 14 :

Classes upto class VII included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class VII.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i) Primary School	P
(ii) Middle School	M*
(iii) Higher Secondary School	S
(iv) Senior Secondary School	PUC
(v) College	C
(vi) Industrial School	I
(vii) Training School	Tr
(viii) Adult literacy class/centre	AC
(ix) Others (specify)e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Note: *There is no Middle school in the Gujarat State.

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

- | | |
|--------------------|----|
| (i) Public Library | PL |
| (ii) Reading room | RR |

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 and 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

PART-B
PRIMARY CENSUS ABSTRACT

Primary Census Abstract

Brief note on Primary Census Abstract :

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-district, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For

Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by

aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Household, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely (i) Cultivators, (ii) Agricultural labourers (iii) Household Industry Workers and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely India, State/ Union Territories, Districts and Cities, Urban Agglomerations (Population 100,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made

available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

The following Abbreviations have been used in the Primary Census Abstract for facility of presentations:

1	Municipal Corporation/ Corporation	M. Corp.
2	Municipality	M
3	Municipal Council	MCI
4	Cantonment Board/Cantonment	CB
5	Notified Area/Notified Area Committee/Notified Committee	NAC
6	Industrial Notified Area	INA
7	Gram Panchayat/ Village Panchayat	GP
8	Nagar Panchayat/ Town Panchayat	NP
9	Census Town	CT
10	Total	T
11	Rural	R
12	Urban	U

The following conversion factor has been used for converting areas into hectares and hectares into km²

Acres x 0.40467 = hectares

100 Hectares = 1 Km²

* These figures represent 'Geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local Bodies. Area figures for rural are derived by subtracting the urban area from the total area of the District. The total of the area figures of talukas will not tally with the district figures because the former represents 'Land Use Area' and are derived from the figures supplied by the Director of Land Records.

ANNEXURE

ANNEXURE – I

NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT

As per 2001 Census the following statement shows talukawise list of villages in each Gram Panchayat in Gandhinagar district.

Village covered under each Gram Panchayat in Kalol Taluka

Sl.No.	Name of Gram Panchayat	Name of Villages Covered	Number of Villages Covered
1	2	3	4
1	Adhana	1 Adhana	1
2	Aluva	1 Aluva	1
3	Amaja	1 Amaja	1
4	Arsodiya	1 Arsodiya	1
5	Balva	1 Balva	1
6	Bhadol	1 Bhadol	1
7	Bhavpura	1 Bhavpura	1
8	Bhimasan	1 Bhimasan	1
9	Bhoyan Moti	1 Bhoyan Moti	1
10	Bileshvarpura	1 Bileshvarpura	1
11	Borisana	1 Borisana	1
12	Chandisana	1 Chandisana	1
13	Chhatral	1 Chhatral	1
14	Dantali	1 Dantali	1
15	Dhamasna	1 Dhamasna	1
16	Dhanaj	1 Dhanaj	1
17	Dhanot	1 Dhanot	1
18	Dhendhu	1 Dhendhu	1
19	Dingucha	1 Dingucha	1
20	Ganpatpura	1 Ganpatpura	1
21	Golthara	1 Golthara	1
22	Hajipur	1 Hajipur	1
23	Himmatpura	1 Himmatpura	1
24	Isand	1 Isand	1
25	Itla	1 Itla	1
26	Jamla	1 Jamla	1
27	Jaspur	1 Jaspur	1
28	Jethlaj	1 Jethlaj	1
29	Kantha	1 Kantha	2
30		2 Nava	
31	Karoli	1 Karoli	1
32	Khatraj	1 Khatraj	1
33	Khorajdabhi	1 Khorajdabhi	1
34	Limbodara	1 Limbodara	1
35	Mokhasan	1 Mokhasan	1
36	Mubarakpura	1 Mubarakpura	1
37	Mulasana	1 Mulasana	1
38	Nadri	1 Nadri	1
39	Nandoli	1 Nandoli	1
40	Nardipur	1 Nardipur	1
41	Nasmed	1 Nasmed	1

Source: Village Directory 2001 as on 31st March, 1999.

Note: { Represents Group Gram Panchayat.

The Government of Gujarat had reconstituted Gandhinagar district by including Kalol and Mansa Talukas from Mahesana District vide Government Notification No.GHM-97-120-M-PFR-2097-2594-L,dated 15th October,1997 and GHM-97-170-M-PFR-3097-2878-L,dated 31st December,1997 respectively, while Dehgam Taluka included from Ahmadabad district vide Notification No.GHM-97-86-M-PFR-1097-L,dated 24th September,1997. Thus reconstituted Gandhinagar district has four Talukas namely (1) Kalol (2) Mansa (3) Gandhinagar (4) Dehgam. The data of 1991 Census of erstwhile Gandhinagar district have been discussed in Annexure II and III. The details of 2001 census data of Gandhinagar district have been discussed in Annexure IV, VI, VII and VIII, while Annexure V provides the recast data of 1991 Census and separate data of 2001 Census.

ANNEXURE - II

FERTILITY AND MORTALITY-1991 CENSUS

Fertility Level:

Population is a dynamic variable and keeps on changing. Increase due to birth and decrease due to death affect the population size of an area. Thus the birth and death are the two most important vital events. Natural increase is the excess of population by births over decrease of population by deaths at a given point of time. The births have direct correlation with the fertility.

The data on fertility levels and trends as revealed by the fertility indices of the 1991 Census like Crude Birth Rate (CBR), Age Specific Fertility Rate (ASFR) and Total Fertility Rate (TFR) are presented and analyzed below. The Definitions and concepts of fertility indices frequently used have already been explained in Analytical Note.

Death Rate:

Death process in demographical terminology is called as mortality. The rate at which death events occur reveal about the standard of living and state of health. Statistical data on causes of death help us in controlling the spread of diseases and suggests new curative methods to medical authorities.

Child Mortality:

Information about questions on children ever born and children surviving canvassed for all ever married women was tabulated by age of the mother. From this estimate of child mortality have been worked out by using Brass technique.

Source: Occasional Paper No 1 of 1997.

The Annexure III shows various fertility indicators of all the districts and State as per 1991 Census. It can be observed that Gandhinagar district has Crude Birth Rate (CBR) of 32.9 and Total Fertility Rate (TFR) of 3.8, both of these rates are lower than the State CBR and TFR of 33.6 and 4.2 respectively. Total Marital Fertility Rate (TMFR), General Fertility Rate (GFR) and General Marital Fertility Rate (GMFR) of Gandhinagar district were 4.6, 123 and 154 respectively, while TMFR, GFR and GMFR of Gujarat State were 5.4, 136 and 175 respectively.

As per 1991 Census in Gandhinagar district Child-Woman ratio in the age group of 0-4 and 5-9 was 431 and 523 respectively, while the same were recorded at 467 and 571 recorded for Gujarat State.

Mean age at marriage means age (in completed years) at which the woman was married. In case a woman was married more than once, the age at which she was married first, was recorded. The rate of mean age at marriage in Gandhinagar district as per 1991 Census was 18.4, which was lower than the mean age at marriage of 19.0 years in Gujarat State.

Source: Gujarat State District Profile 1991.

As per above table there were 4.0 children born with 3.6 surviving children per woman in per ever married woman in the age group of 45-49 Gandhinagar district.

ANNEXURE – IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/ PLACE OF LAST RESIDENCE, 2001 CENSUS

Migration

Migration is a factor in changing the size and structure of the population. The migration process affects the areas to which migrants have moved and areas which they have left. Migration is a form of geographical mobility between one geographical unit to another, involving a change of residence from the place of origin/birth to the place of destination or place of new settlement from the last residence. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

Internal and International Migration

The migration movements are of four types –

1. Migration within the district of enumeration (intra-district migration)
 2. Migration from one district to another but within the State
 3. Migration from one state to another state of the country (inter-state migration) and
 4. Migration from one country to another country.
- The first three together constitute internal migration while the last type of movement is called international migration.

Migration by place of birth:

The absolute number and percentage distribution of Migrants by place of birth to total population in Gandhinagar district and in the State at 1991 Census were as following.

ANNEXURE

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH-2001 CENSUS

Migration By Place of Birth	Gujarat			Gandhinagar		
	Persons	Males	Females	Persons	Males	Females

Source: Gujarat State-D-Series Tables-2001.

As per 2001 Census there were 18,810,592 migrants in Gujarat whose place of birth was different than the place of enumeration. Out of such migrants, 56.9 per cent were born elsewhere in the district of enumeration, 29.2 per cent were born in other districts of the State, 13.4 per cent were born in other States of India and 0.4 per cent were born in other countries. No migrant was reported under the category of "Unclassified" in the State as well as in the district.

It can be seen that as per 2001 Census in Gandhinagar district, there were 648,565 migrants whose place of birth was different than the place of enumeration. As per 2001 Census in Gandhinagar district, 31.7 per cent were born elsewhere in the district of enumeration, 58.3 per cent were born in other districts of the State, 9.6 per cent were born in other States of India and 0.3 per cent was born in other countries.

INTER STATE IN-MIGRANTS TO GUJARAT STATE AS PER 2001 CENSUS BY PLACE OF BIRTH

Place of Birth	Gujarat		Gandhinagar	
	Migrants	Percentage to total migrants	Migrants	Percentage to total migrants
1	2	3	4	5
Total Migrants	2,520,676	100.0	62,487	100.0
Madhya Pradesh	159,055	6.3	3,156	5.1
Maharashtra	734,945	29.2	8,238	13.2
Rajasthan	471,109	18.7	19,083	30.5
Uttar Pradesh	520,094	20.6	12,667	20.3
Other States	635,473	25.2	19,343	31.0

Source: Gujarat State-D-Series Tables-2001

The above Statements show migration in Gujarat and in Gandhinagar district from other States as per 2001 Census. It can be seen that as per 2001 Census there were 2,520,676 persons in the State who were born in other States of India. In 2001 out of such persons 29.2 per cent were born in Maharashtra while in migrants born in Rajasthan and Uttar Pradesh were 18.7 and 20.6 per cent respectively. As per 2001 Census, in Gujarat, out of total inter State migrants

6.3 per cent were born in Madhya Pradesh and the remaining 25.2 per cent were born in other States of India.

It can be seen that in 2001, in Gandhinagar district, there were 62,487 migrants who were born in other States of India. The State-wise distribution reveals that as per 2001 Census 30.5 per cent of migrants were born in Rajasthan. In 2001 the

proportion of migrants born in the States of Uttar Pradesh, Maharashtra and Madhya Pradesh was 20.3 per cent, 13.2 per cent and 5.1 per cent respectively. The proportion of migrants born in other States was 31.0 per cent.

Migration by place of last residence:

Distribution of migrants by place of last residence in Gujarat and Gandhinagar as per 2001 Census and percentage distribution of in-migrants from other States to Gujarat by place of last residence are presented below.

DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE IN GUJARAT - 2001 CENSUS

Migration By Place of Last Residence	Gujarat			Gandhinagar		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
Total Migrants	19,221,602	6,694,122	12,527,480	655,029	232,650	422,379

Source: Gujarat State-D-Series Tables-2001

There were 19,221,602 migrants by place of last residence in Gujarat according to 2001 Census. The proportion of male and female migrants whose place of last residence was elsewhere within the district of enumeration was 52.4 per cent and 69.8 per cent respectively in Gujarat State. The reason for higher proportion of female migration is marriage. In Gujarat as per 2001 Census, 63.7 per cent migrants were residing elsewhere in the district of enumeration, 24.6 per cent were such whose last residence was in other districts of the State while last residence of 11.4 per cent migrants was in other States of India and only 0.3 per cent were such whose last residence was in other countries. There were no migrants in the category titled "Unclassified".

There were a total of 655,029 migrants by place of last residence in Gandhinagar district as per 2001 Census. Out of total migrants, 40.8 per cent of migrants were residing elsewhere in the district of enumeration, 52.2 per cent were such whose last residence was in other districts of the State while last residence of 6.9 per cent migrants was in other States of India and only 0.2 per cent migrants' last residence was in other countries. There were no migrants in the category titled "Unclassified".

Migration by reason:

The following Statement gives distribution of migrants by reasons of migration from other States of India.

ANNEXURE

MIGRATION FROM OTHER STATES OF INDIA BY PLACE OF LAST RESIDENCE IN GUJARAT 2001

States	Total Migrants	Reasons						
		Work/ Employment	Business	Education	Marriage	Moved after birth	Moved with household	Others
1	2	3	4	5	6	7	8	9
Total	2,182,741	660,767 (30.3)	204,905 (9.4)	12,624 (0.6)	370,546 (17.0)	134,751 (6.2)	577,599 (26.5)	221,549 (10.2)
Madhya Pradesh	131,745	29,363 (22.3)	11,867 (9.0)	794 (0.6)	27,722 (21.0)	7,221 (5.5)	40,843 (31.0)	13,935 (10.6)
Maharashtra	655,080	139,701 (21.3)	42,719 (6.5)	2,932 (0.4)	142,939 (21.8)	62,145 (9.5)	191,630 (29.3)	73,014 (11.1)
Rajasthan	391,649	80,234 (20.5)	59,938 (15.3)	1,555 (0.4)	82,251 (21.0)	23,145 (5.9)	103,923 (26.5)	40,603 (10.4)
Uttar Pradesh	447,325	179,313 (40.1)	47,179 (10.5)	1,712 (0.4)	53,419 (11.9)	17,296 (3.9)	106,884 (23.9)	41,522 (9.3)
Other States of India	556,942	232,156 (41.7)	43,202 (7.8)	5,631 (1.0)	64,215 (11.5)	24,944 (4.5)	134,319 (24.1)	52,475 (9.4)

Source: Gujarat State-D-Series Tables-2001

It can be seen from the data given above that the main reason for the migration was "Work/Employment". As much as 30.3 per cent of migrants moved due to work or employment as per 2001 census, this was followed by 26.5 per cent of migration which was due to the reason of "Moved with household". In 2001, the proportion of migration

due to marriage was 17.0 per cent. The reason for 9.4 per cent of migration was Business, and 6.2 per cent of migration was due to the reason titled "Moved after birth" and only 0.6 per cent of migration was for Education. The remaining 10.2 per cent of migration was due to other reasons.

ANNEXURE - V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT AS PER 1991 AND 2001 CENSUSES

Religion is the basic cultural characteristics of the population. In secular country like India several religions have thrived and every decennial Census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the Census are of immense use for the Anthropologists, Sociologists, Demographers, Administrators, and Planners and also for laymen.

The six main religions are i) Hindu, ii) Muslim, iii) Christian, iv) Sikh, v) Buddhist, and vi) Jain were recorded. In respect of 'Others', the actual religion returned was recorded. If a person said that he has no religion, it was recorded accordingly and if any person refused to State his religion it was recorded as 'religion not stated'.

Source: Gujarat State-C-Series Tables-2001

The Statement above gives the details of distribution of population for Gujarat State and Gandhinagar district by six major religions as per 2001 Census. The 2001 Census data reveals that the proportion of Hindus was 89.1 per cent in the State of Gujarat against 95.2 per cent recorded in Gandhinagar. In comparison, in 1991 the proportion

of Hindus at State level was 89.5 per cent while in the district the proportion of Hindus was 95.3 per cent. The proportion of Muslims was 3.5 per cent in the district in 1991 which stood at 3.8 per cent in 2001. At State level the proportion of Muslims was 8.7 per cent in 1991 and 9.1 per cent in 2001 Census.

In the district the population of Jain was 8,791 (0.8 per cent) in 1991 which decreased to 7,769 (0.6 per cent) in 2001 Census. In State also the proportion of Jain which was 1.2 per cent of total State population in 1991 has come down to 1.0 per cent in 2001 Census. The population proportion of Christian, Sikh, Buddhists, and people following other religions

had not shown any significant changes in 2001 as compared to 1991. As per 1991 Census there were 6,478 persons in the State in the category of "Religion not Stated" and in 2001 there were 33,578 persons in this category. In the district 682 persons were reported in the category of "Religion not Stated" in 1991 while 378 persons were reported under this category in 2001

ANNEXURE-VI

MARITAL STATUS OF POPULATION AS PER 2001 CENSUS

The details of sex-wise marital status for Gujarat State and Gandhinagar District as per 2001 Census are given below:-

MARITAL STATUS BY SEX-2001 CENSUS

Sl.No.	Marital Status	Gujarat			Gandhinagar		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8
1	Never married	24,132,905 (47.6)	13,647,899 (51.7)	10,485,006 (43.2)	595,218 (44.6)	346,675 (49.7)	248,543 (39.1)
2	Married	24,222,087 (47.8)	12,141,819 (46.0)	12,080,268 (49.7)	672,574 (50.4)	335,068 (48.0)	337,506 (53.0)
3	Widowed	2,111,678 (4.2)	497,265 (1.9)	1,614,413 (6.7)	60,510 (4.5)	13,103 (1.9)	47,407 (7.5)
4	Divorced/Separated	204,347 (0.4)	98,594 (0.4)	105,753 (0.4)	6,153 (0.5)	3,153 (0.5)	3,000 (0.5)
5	Unclassified	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)
	Total	50,671,017 (100.0)	26,385,577 (100.0)	24,285,440 (100.0)	1,334,455 (100.0)	697,999 (100.0)	636,456 (100.0)

Source: Gujarat State-C-Series Tables-2001

The above Statements show marital status by sex in the State as well as in the district. As per 2001 Census the number of married persons was 24,222,087 (47.8 per cent) in Gujarat and 672,574 (50.4 per cent) in Gandhinagar. As per 2001 Census the proportion of never married persons was 47.6 per cent in Gujarat State and 44.6 per cent in Gandhinagar

district. The proportion of widows was 4.2 per cent in the State and 4.5 per cent in the district while the proportion of divorced/separated was 0.4 per cent in the State and 0.5 per cent in the district. No person was reported in the category titled "Unclassified" in the State as well as in the district.

DISTRIBUTION OF RURAL URBAN POPULATION BY MARITAL STATUS-2001

Sl.No.	Marital Status	Gujarat			Gandhinagar		
		Total	Rural	Urban	Total	Rural	Urban
1	Never married	24,132,905 (47.6)	15,144,193 (47.7)	8,988,712 (47.5)	595,218 (44.6)	377,963 (43.6)	217,255 (46.5)
2	Married	24,222,087 (47.8)	15,058,801 (47.4)	9,163,286 (48.4)	672,574 (50.4)	439,952 (50.7)	232,622 (49.8)
3	Widowed	2,111,678 (4.2)	1,403,972 (4.4)	707,706 (3.7)	60,510 (4.5)	45,052 (5.2)	15,458 (3.3)
4	Divorced/Separated	204,347 (0.4)	133,801 (0.4)	70,546 (0.4)	6,153 (0.5)	4,228 (0.5)	1,925 (0.4)
5	Unclassified	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)	0 (0.0)
	Total	50,671,017 (100.0)	31,740,767 (100.0)	18,930,250 (100.0)	1,334,455 (100.0)	867,195 (100.0)	467,260 (100.0)

Source: Gujarat State -C- Series Tables-2001

It can be seen that proportion of never married persons was lower at 44.6 per cent in the district as compared to 47.6 per cent recorded in Gujarat State as per 2001 Census. In rural areas the proportion of never married persons was 47.7 per cent in State and 43.6 per cent in the district. In urban areas the proportion of never married persons was at 47.5 per cent in State and 46.5 per cent in the district. As per 2001 Census the proportion of married persons, in rural areas, was 47.4 per cent in Gujarat and 50.7 per cent in Gandhinagar.

In 2001 Census, in urban areas the proportion of married persons was 48.4 per cent in Gujarat and 49.8 per cent in Gandhinagar. The proportion of widowed in rural areas, was 4.4 per cent in the State and 5.2 per cent in the district. The same for urban areas was 3.7 per cent in the State and 3.3 per cent in the district. The proportion of divorced/separated was 0.4 per cent in the State and 0.5 per cent in the district. There was no population reported under the category titled "Unclassified".

ANNEXURE - VII

AGE, SEX AND EDUCATION IN THE DISTRICT AT THE 2001 CENSUS

Literacy has occupied an important position in Indian Census in one form or the other from the very beginning. The definition of literates as adopted is "A person who can both read and write with understanding in any language is to be taken as literate". A person who can merely read but can not write was not treated as literate. It is not necessary that a person who was literate should have received any formal education or should have passed any

minimum educational standard. All children below the age 7 are treated as illiterate. While processing the literacy data population of age group 0-6 is excluded.

The following statement gives the distribution of literates and illiterates by broad age groups and sex in the district as well as the State at the time of 2001 Census:-

LITERACY BY AGE -GROUP AND BY SEX -2001

Age Group	Particular	Gujarat			Gandhinagar		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8
7-14	Population	9,091,764	4,814,440	4,277,324	231,463	126,716	104,747
	Literates	7,599,713	4,206,428	3,393,285	205,742	116,490	89,252
	Literacy rate	(83.6)	(87.4)	(79.3)	(88.9)	(91.9)	(85.2)
15-29	Population	14,247,890	7,477,081	6,770,809	392,142	202,487	189,655
	Literates	11,060,357	6,435,890	4,624,467	327,474	186,503	140,971
	Literacy rate	(77.6)	(86.1)	(68.3)	(83.5)	(92.1)	(74.3)
